CommunityWorks Monthly Update

Pharmacy

Pharmacy Label Changes

- The following updates to the pharmacy label have been made to help meet regulatory requirements:
 - IV labels to reflect route of administration.
 - Brand name pulled from formulary product.
 - Phone number logic added for Modem Business type, when required by state law.
 - Order number added to dispense labels.

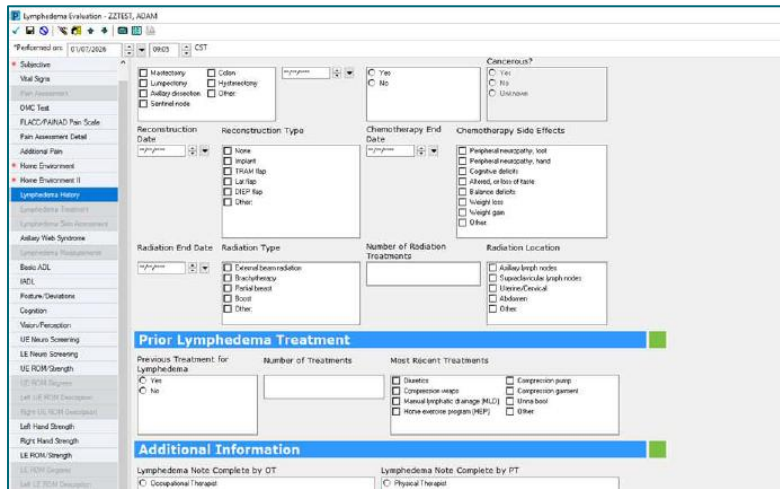

Rehabilitation

Lymphedema Documentation

- Conditional fields Lymphedema Note Completed by OT and Lymphedema Note Completed by PT updated to open appropriate Time Spent with Patient sections for OT/PT.

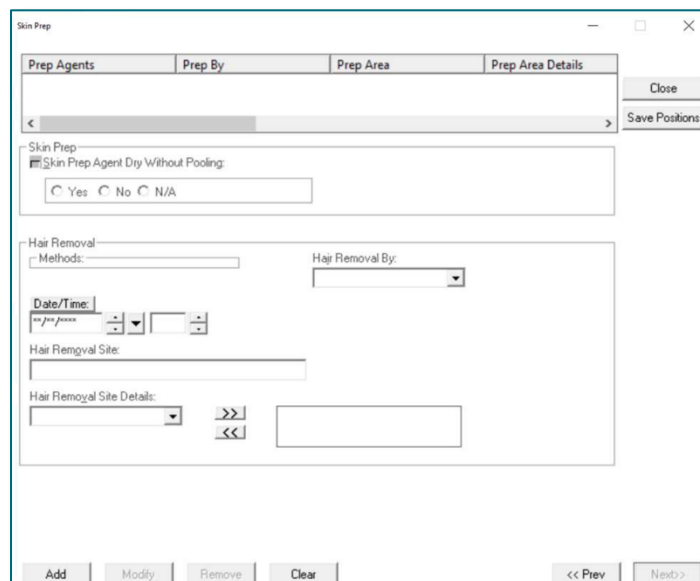

- Lymphedema conditional fields removed from OT/PT PowerForms, recommendation is to use Lymphedema Evaluation or Rehabilitation Specialty Content PowerForm for documentation.

Surgery

Skin Prep Segment

- Hair Removal fields removed, new Hair Removal segment added previously.
- Added fields Assistive Device Used, Prep Laterality, Skin Response, Comments.
- Field names updated for clarity.

CommunityWorks Monthly Update

Future Changes

To Be Determined

- Instead of using POC PowerForms, POC result values can be entered into the Point of Care Result Entry tool. Coming mid-2026.
- Reverse Interaction Checking will automatically run each time new allergies are entered and can be run at any time by clicking Reverse Allergy Check button.
 - Interaction is found: Red warning populates with details. This is not auto dismissed.
 - No interaction is found: Green checkmark with text **Success. No Drug Interaction found.** This message will auto-dismiss after 5 seconds.
- MyExperience Replacement
 - MyExperience will be replaced with Role Profiles. In the future, if more than one role exists there will be a prompt to choose a role when logging into an application.

For questions regarding process and/or policies, please contact your unit's Clinical Educator. For questions regarding workflow, please [place a ticket](#) to Health Informatics. For any other questions please contact the Customer Support Center at: 207-973-7728 or 1-888-827-7728.
