Unique Plan Description: Interventional Radiology Procedures
Plan Selection Display: Interventional Radiology Procedures
PlanType: Medical
Version: 1
Begin Effective Date:
End Effective Date: Current
Available at all facilities
Plan Comment:

Interventional Radiology Procedures
Tests/Procedures

Thoracentesis(NOTE)*
Imaging technologist will update the thoracentesis order IF the radiologist determined imaging modality differs from the original order(NOTE)*
Pleural fluid specimen labs and post procedure chest x-ray orders ONLY to be initiated through the Thoracentesis subphase(NOTE)*
US Thoracentesis w/Aspiration to be initiated below(NOTE)*

☐ Thoracentesis(SUB)*

☐ US Thoracentesis w/Aspiration 32555
Routine, Diagnostic and Therapeutic Right Thoracentesis (DEF)*
Comments: Imaging technologist to update thoracentesis order only if the radiologist determined imaging modality differs from the original order.
Routine, Diagnostic Right Thoracentesis
Comments: Imaging technologist to update thoracentesis order only if the radiologist determined imaging modality differs from the original order.
Routine, Therapeutic Right Thoracentesis
Comments: Imaging technologist to update thoracentesis order only if the radiologist determined imaging modality differs from the original order.
Routine, Diagnostic and Therapeutic Left Thoracentesis
Comments: Imaging technologist to update thoracentesis order only if the radiologist determined imaging modality differs from the original order.
Routine, Diagnostic Left Thoracentesis
Comments: Imaging technologist to update thoracentesis order only if the radiologist determined imaging modality differs from the original order.
Routine, Therapeutic Left Thoracentesis
Comments: Imaging technologist to update thoracentesis order only if the radiologist determined imaging modality differs from the original order.

Abscess Drainage(NOTE)*
Imaging technologist will update the abscess drainage order IF the radiologist determined imaging modality differs from the original order(NOTE)*

☐ CT Abscess Drainage 75989
Routine
Comments: Imaging technologist to update abscess drainage order only if the radiologist determined imaging modality differs from the original order.

Paracentesis(NOTE)*
Medical Imaging US Paracentesis is available for ordering outside of this PowerPlan(NOTE)*
Biopsy(NOTE)*
Imaging technologist will update the biopsy order IF the radiologist determined imaging modality differs from the original order(NOTE)*

☐ CT Guided Biopsy/Localization 77012
Routine
Comments: Imaging technologist to update biopsy order only if the radiologist determined imaging modality differs from the original order.

Catheters and Tubes(NOTE)*
Imaging technologist will update the catheter/tube orders IF the radiologist determined imaging modality differs from the original order(NOTE)*

☐ SP Tube Change Imaging
Routine
Comments: Imaging technologist to update tube change order only if the radiologist determined imaging modality differs from the original order.

Non Categorized

Providers must exercise independent clinical judgment when using order sets(NOTE)*

***Report Legend:**
DEF - This order sentence is the default for the selected order
GOAL - This component is a goal
IND - This component is an indicator
INT - This component is an intervention
IVS - This component is an IV Set
NOTE - This component is a note
Rx - This component is a prescription
SUB - This component is a subphase
