CommunityWorks Monthly Update

All Venues

Allergies

- Reaction field required in all locations where Allergies can be documented.

6 Minute Walk Form

- 6 Minute Walk PowerForm updated with new fields to satisfy regulatory requirements.

The screenshot displays a web-based form titled "6 Minute Walk Test" within a browser window. The form is organized into several sections:

- Pre-Test Assessment:** Includes fields for Heart Rate, Respiratory Rate, SPO2 at Rest, Systolic Blood Pressure, Diastolic Blood Pressure, Height/Length Measured, Weight Measured, Age Respiratory, and Predicted Distance.
- 6 Minute Walk Test:** Contains fields for Start Time, Stop Time, Total Time, and a series of SpO2 and Heart Rate measurements at 1-minute intervals from 1 to 6 minutes.
- Oxygen Therapy:** Features dropdown menus for O2 Therapy 1 through 6 minutes and supplemental O2 fields for each minute.
- Test Summary:** Includes Total Number of Laps, 6 Minute Walk Distance, Test Duration, Percent of Predicted Distance, and a "Stop Before 6 Minutes?" checkbox.
- 6 Minute Walk Test Recovery:** Contains Recovery Time, Borg Dyspnea, Borg Fatigue Scale, Numeric Pain Score, and checkboxes for symptoms like Angina/Chest pain, Leg cramps, Wheeze, Dizziness/nausea, Other, Hip pain, Joint pain, and Tired.
- Recovery Respiration:** Includes checkboxes for Unlabored, Quiet, Dyspneic, Gasping, and Hyperpnea, as well as checkboxes for Labored, Flared lips, Shallow, Use of accessory muscles, and Other.
- Supplemental O2 and Oxygen Therapy:** Fields for Supplemental O2 and checkboxes for Room air and Nasal cannula.
- Additional Comments:** A text area at the bottom for notes.

PHQ Updates

- The Patient Health Questionnaire on PHQ-2 and PHQ-9 forms are updated to reflect the latest requirements.
 - Any custom build DA2 reports utilizing the old forms will need to be updated to reflect new questions.

PHQ-2/PHQ-9

Over the last 2 weeks, how often have you been bothered by any of the following problems?

<p>1. Little Interest Or Pleasure In Doing Things (ref)</p> <input type="radio"/> Not at all <input type="radio"/> Several days <input type="radio"/> More than half the days <input type="radio"/> Nearly every day	<p>2. Feeling Down, Depressed, Or Hopeless</p> <input type="radio"/> Not at all <input type="radio"/> Several days <input type="radio"/> More than half the days <input type="radio"/> Nearly every day	<p>PHQ-2 Depression Score (ref)</p> <input style="width: 100%;" type="text"/> <p><small>For a score of 3 or greater, major depressive disorder is likely. Patient should be further evaluated. Continue to document PHQ-9 questions.</small></p>
<p>3. Trouble Falling Or Staying Asleep, Or Sleeping Too Much</p> <input type="radio"/> Not at all <input type="radio"/> Several days <input type="radio"/> More than half the days <input type="radio"/> Nearly every day	<p>4. Feeling Tired Or Having Little Energy</p> <input type="radio"/> Not at all <input type="radio"/> Several days <input type="radio"/> More than half the days <input type="radio"/> Nearly every day	<p>5. Poor Appetite Or Overeating</p> <input type="radio"/> Not at all <input type="radio"/> Several days <input type="radio"/> More than half the days <input type="radio"/> Nearly every day
<p>6. Feeling Bad About Yourself — Or That You Are A Failure Or Have Let Yourself Or Your Family Down</p> <input type="radio"/> Not at all <input type="radio"/> Several days <input type="radio"/> More than half the days <input type="radio"/> Nearly every day	<p>7. Trouble Concentrating On Things, Such As Reading The Newspaper Or Watching Television</p> <input type="radio"/> Not at all <input type="radio"/> Several days <input type="radio"/> More than half the days <input type="radio"/> Nearly every day	<p>8. Moving Or Speaking So Slowly That Other People Could Have Noticed? Or The Opposite - Being So Fidgety Or Restless That You Have Been Moving Around A Lot More Than Usual</p> <input type="radio"/> Not at all <input type="radio"/> Several days <input type="radio"/> More than half the days <input type="radio"/> Nearly every day
<p>9. Thoughts That You Would Be Better Off Dead Or Of Hurting Yourself In Some Way</p> <input type="radio"/> Not at all <input type="radio"/> Several days <input type="radio"/> More than half the days <input type="radio"/> Nearly every day	<p>PHQ-9 Depression Score (ref)</p> <input style="width: 100%;" type="text"/>	<p>PHQ-9 Level of Depression Severity</p> <input type="radio"/> 0-4: None-minimal depression <input type="radio"/> 5-9: Mild depression <input type="radio"/> 10-14: Moderate depression <input type="radio"/> 15-19: Moderately Severe depression <input type="radio"/> 20-27: Severe depression

If you identified any problems, how difficult have these problems made it for you to do your work, take care of things at home, or get along with other people?

Not difficult at all Somewhat difficult Very difficult Extremely difficult

PHQ-9 Score	Depression Severity	Proposed Treatment Actions
0 - 4	None-minimal	None
5 - 9	Mild	Watchful waiting; repeat PHQ-9 at follow-up
10 - 14	Moderate	Treatment plan, considering counseling, follow-up and/or pharmacotherapy
15 - 19	Moderately Severe	Active treatment with pharmacotherapy and/or psychotherapy
20 - 27	Severe	Immediate initiation of pharmacotherapy and, if severe impairment or poor response to therapy, expedited referral to a mental health specialist for psychotherapy and/or collaborative management

* From Kroenke K, Spitzer RL, Psychiatric Annals 2002;32:509-521

Developed by Drs. Robert L. Spitzer, Janet B.W. Williams, Kurt Kroenke and colleagues, with an educational grant from Pfizer Inc.

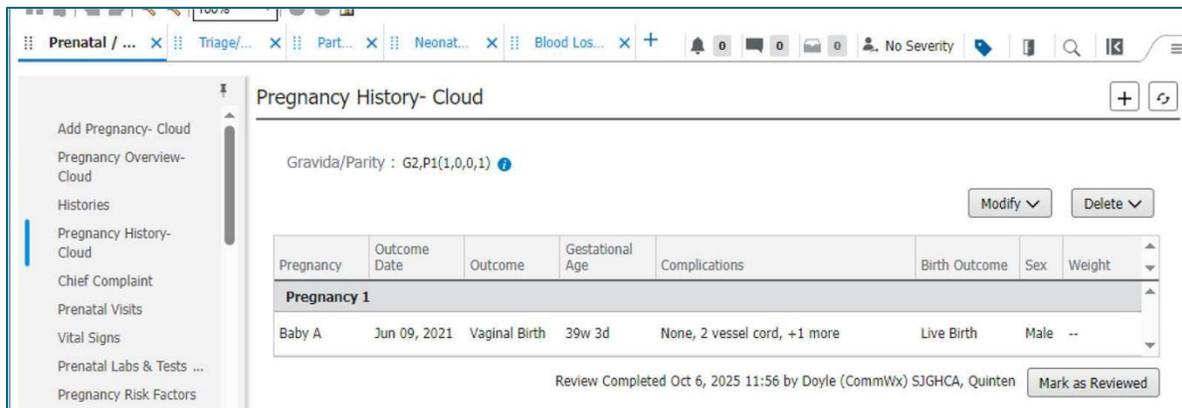

Ambulatory

Intake Summary

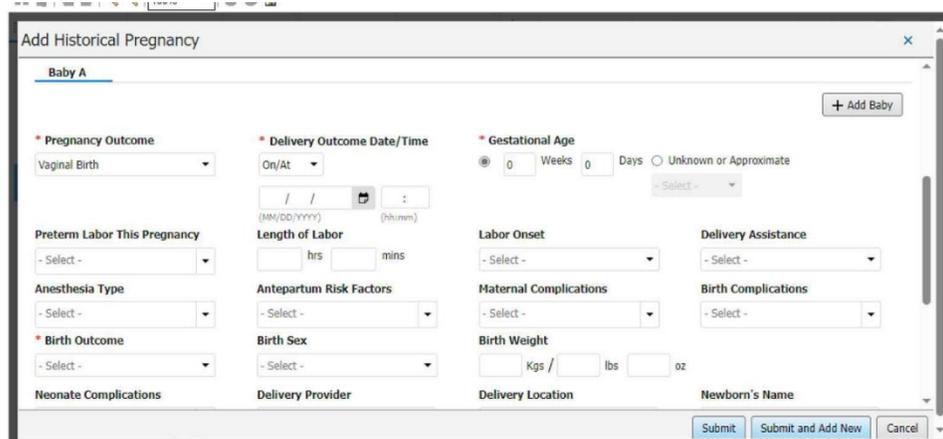

- The Intake summary section will display a single Pain Present field within the Pain header.
 - Selecting the **Yes actual or suspected pain** will launch a new pain assessment section for further documentation.

Women's Health

Pregnancy Cloud Components

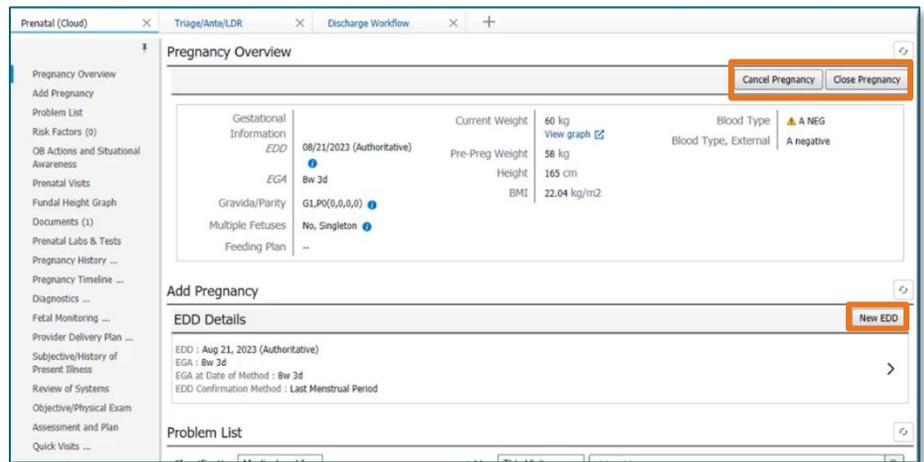

- Pregnancy History – Cloud component added to workflow Mpage.
 - Former Pregnancy History PowerForm sections and Pregnancy History tab in Histories in table of contents and Mpage are removed.
 - Pregnancy History – Cloud Component allows review or management of historical pregnancies.
 - Add Pregnancy Component is now in the Triage/Ante/Labor and Prenatal/Postpartum workflow.
- Changes within the Add Pregnancy – cloud include:
 - Ability to mark the current pregnancy as Confidential within the Add Pregnancy Feature.
 - Data from earlier opened pregnancies within the old component will cross over into the new component.

➤ Pregnancy Overview

- One of the most significant changes with this component is that it now contains and manages EDD Maintenance within the chart.
- **EDD Maint** is removed from being its own component in the workflow pages.
- The cancel and close pregnancy options are available within this component.

Behavioral Health

Note Types

- The following note types will only be viewable once they have been signed:
- BH Case Management Note
 - BH Contact Note
 - BH Discharge Note
 - BH H&P Note
 - BH Initial Psychiatric Evaluation
 - BH Note
 - BH Progress Note
 - BH Psychology Note
 - BH Psychosocial Note
 - BH Social Services Note
 - BH Therapeutic Documentation
 - BH Therapist Note

Surgery

Perioperative Preprocedure Intake

- Preprocedure Intake Comprehensive PowerForm is renamed to Perioperative Preprocedure Intake.

Future Changes

To Be Determined

- Instead of using POC PowerForms, POC result values can be entered into the Point of Care Result Entry tool.
- Reverse Interaction Checking will automatically run each time new allergies are entered and can be run at any time by clicking **Reverse Allergy Check** button.
 - **Interaction is found:** Red warning populates with details. This is not auto dismissed.
 - **No interaction is found:** Green checkmark with text **Success. No Drug Interaction found.** This message will auto-dismiss after 5 seconds.
- MyExperience Replacement
 - **MyExperience will be replaced with Role Profiles.** In the future, if more than one role exists there will be a prompt to choose a role when logging into an application.
