

## Quest Diagnostic Updates: General Lab Orders

**WHEN:** Tuesday, March 4, 2025

**WHERE:** The change will affect the following venue(s):

- Acute/Inpatient (to include ED & Peri-Op)
- Ambulatory

**At the following NLH Member Organization(s):**

- Northern Light Mayo Hospital
- Northern Light Internal Medicine Dexter
- Northern Light Orthopedics Dover-Foxcroft
- Northern Light Pain Management Dover-Foxcroft
- Northern Light Primary Care Corinth
- Northern Light Primary Care Dover-Foxcroft
- Northern Light Primary Care Milo
- Northern Light Surgery Dover-Foxcroft
- Northern Light Women's Health Dover-Foxcroft

**WHO:** The change will affect the following staff at the above noted locations:

- All Clinical Staff

**WHAT:** Northern Light Mayo will be transitioning certain **Flexitest** orders to general lab for **Quest Diagnostics**.

**WHY:** Quest Diagnostics offers collaboration with health systems to optimize laboratory services. This includes providing a broader test menu, cost-efficient service, and broad patient access. The update will also provide less time for providers entering Flexitests.

## HOW: What's Not Changing?

- The ordering process for laboratory orders will not change.

## What Is Changing?

- Providers will still use the [Quest Diagnostics: Test Directory](#) to look up labs and locate Quest Test Codes.
- Please **remove Flexitest favorites** and **replace** them with the **orders** that are available **below**:

**NOTE:** Updating Order Favorites will help prevent any delays, as ordering an outdated lab from Order Favorites may result in an error. Quest Diagnostics may ask the ordering provider to enter an order for the correct lab.
