CommunityWorks Monthly update

All Venues

CSSRS – Columbia Suicide Severity Rating Scale

- The CSSRS is being updated to the latest version. When low, moderate, or high risk is documented within a PowerForm or iView, a rule will fire a suicide precaution order and consult to social services order.

Orthostatic Blood Pressure

- Orthostatic blood pressure documentation will be updated to be consistent across iView, PowerForms, to produce accurate information in dynamic documentation notes.

Physical Exam					
Vitals & Measurements					
T: 36.4	36.4	°C	(Temporal Artery)	HR: 55	(Peripheral)
BP:	119/77	BP:	120/75	(Repeat)	
Orthostatic BP			Orthostatic HR		
Supine	120/77	07/08/2025	13:20	CDT	52
Sitting	110/70	07/07/2025	12:05	CDT	50
Standing	121/78	07/08/2025	13:20	CDT	55
Standing 3 Min	122/90	07/07/2025	09:52	CDT	56

Valuables/Belongings Documentation

- Valuables/Belongings documentation will be the same across all venues. Consistent documentation will ensure that information will properly display and pull forward for that encounter and ensure accurate information in the event of a transfer.

Addition of Non-Formulary Med

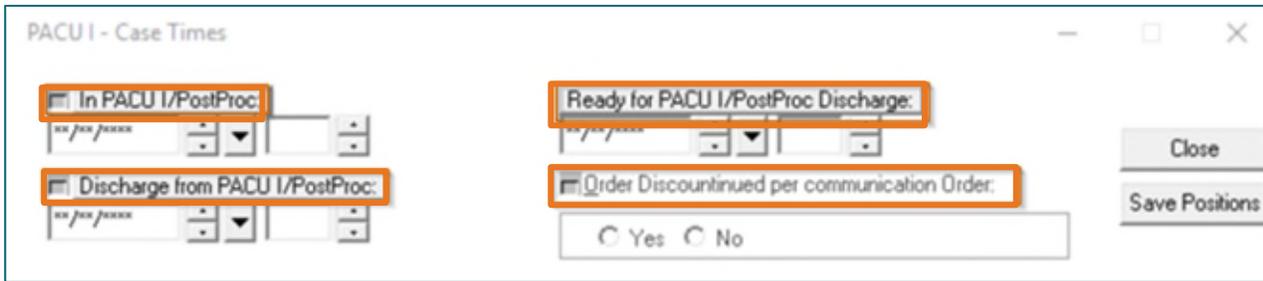

- When placing an order for a *non-formulary* or *template non-formulary medication with a route of Neb* or *INH*, a reflex order will be placed for an aerosol treatment order (neb) or metered dose inhaler treatment (INH).
- If placing the *non-formulary* or *template non-formulary orders that are not with a route of administration of NEB or INH*, no reflex will occur and will be no different than how it worked previously.

▶ Patient Care
▾ Respiratory
☑ 66° Aerosol Treatment Ordered 06/11/25 9:08:00 CDT, 2x/Day, PRN NF - zz 4 Nebulized Inhalation 2x/Day PRN Air Hunger Order on ZZTEST, BOB : Frequency= 2x/Day PRN= Yes Strength
▶ IV Solutions
▾ Medications
☑ 66° Non-Formulary (z... Ordered zz, 4, Nebulized Inhalation, 2x/Day, PRN for Air Hunger, Start date: 06/11/25 9:08:00 CDT, 06/11/25 9:08:00 CDT

Surgery

PACU Times Required

- PACU case time fields will be renamed and will be required.

Surgery Vital Signs

- Updated the label of the temperature and blood pressure fields.
- Added Rectal, Axillary, Intervascular, and Body Temperature, Type of Body Temperature, Mean Arterial Pressure, Cuff, and FIO2 fields.
- Removed BP Site.
 - This can be documented in interactive view.

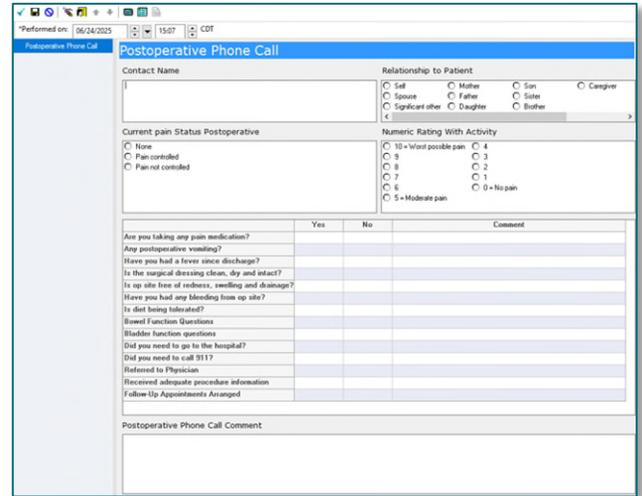

Perioperative MPages

- The Preoperative Summary, Intraoperative Summary, Postoperative Summary, Discharge, and Nurse Handoff are removed and replaced with PAT Workflow, Perioperative Workflow, and Recovery and Discharge Workflow.
- The Preanesthesia Workflow, Postanesthesia Workflow, and Anesthesia Summary are removed and replaced with Anesthesia Workflow and Anesthesiology Summary.
- The Surgery Workflow is removed and replaced with Ambulatory Workflow (Surgery) and Inpatient Workflow (Surgery) Workflows.

CommunityWorks Monthly update

Surgery Postoperative Phone Call

- The surgery Postoperative Phone Call form has been updated to enable Postoperative Phone Call information to be consistent and up-to-date across all domains.
 - The “Follow-Up Call Contact Info” section is removed
 - The postoperative questions have been replaced with a grid format.

Pharmacy

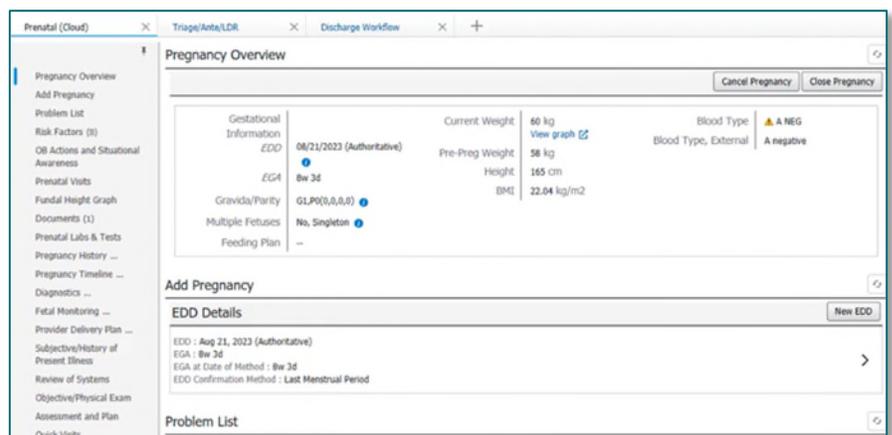

Dose Range Checking

- Dose Range Checking update will be performed Tuesday August 27, at 8:30 pm EST – Wednesday, August 28, 8:30 am EST.
- Dose Range Checking Functionality will not be available while updates are being made.

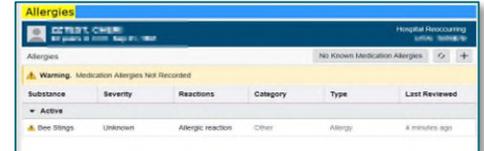

Future Changes

To Be Determined

- Instead of using POC PowerForms, POC result values can be entered into the Point of Care Result Entry tool.
- Pregnancy Cloud components will include workflows for add/close pregnancy, pregnancy overview, and pregnancy history components. These will replace the legacy Oracle Health Maternity MPage Components.

- In OT/PT/SLP forms, duplicate charges and charge sections will be removed. New 'Time Spent With Patient' sections for OT/PT/SLP acute, inpatient, outpatient, and long-term care PowerForms will replace those sections.
- Allergies will be updated with a new look and feel for a more user-friendly experience.
 - No changes to the MPage component at this time, the update will occur in patient's charts, forms, scheduling appointment book, PharmNet, and RadNet.
- Nursing Bedside Swallow Screen
 - Nursing Swallow Screen protocol is no longer supported. The Yale Swallow Protocol will be implemented when Oracle has established copyright permissions.
- Reverse Interaction Checking will automatically run each time new allergies are entered and can be run at any time by clicking Reverse Allergy Check button.
 - **Interaction is found:** Red warning populates with details. This is not auto dismissed.
 - **No interaction is found:** Green checkmark with text **Success. No Drug Interaction found.** This message will auto-dismiss after 5 seconds.
- MyExperience Replacement
 - **MyExperience will be replaced with Role Profiles.** In the future, if more than one role exists there will be a prompt to choose a role when logging into an application.

For questions regarding process and/or policies, please contact your unit's Clinical Educator. For questions regarding workflow, please [place a ticket](#) to Health Informatics. For any other questions please contact the Customer Support Center at: 207-973-7728 or 1-888-827-7728.
