Behavioral Health Staff

Ambulatory Only

Fully Functional Allergy Component – PowerChart Touch – *Go-Live July 8*

WHAT: Providers will have the ability to add an allergy, convert a free-text allergy, document no known allergies and no known medication allergies, perform reverse allergy checking, mark allergies as reviewed, modify allergies, and review allergies.

For detailed information, please see the flyer.

WHY: The update enables full functionality of the allergy component, including reverse allergy checks, to support safe and effective prescribing.

WHEN: **Tuesday, July 8, 2025**

WHERE: **The change will affect the following venue(s):**

- Acute/Inpatient (to include ED & Peri-Op)
- Ambulatory/WIC

At the following NLH Member Organization(s):

- All NLH Hospitals (excluding NL Mayo)

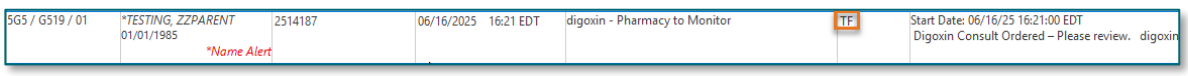
WHO: **The change will affect the following staff at the above noted locations:**

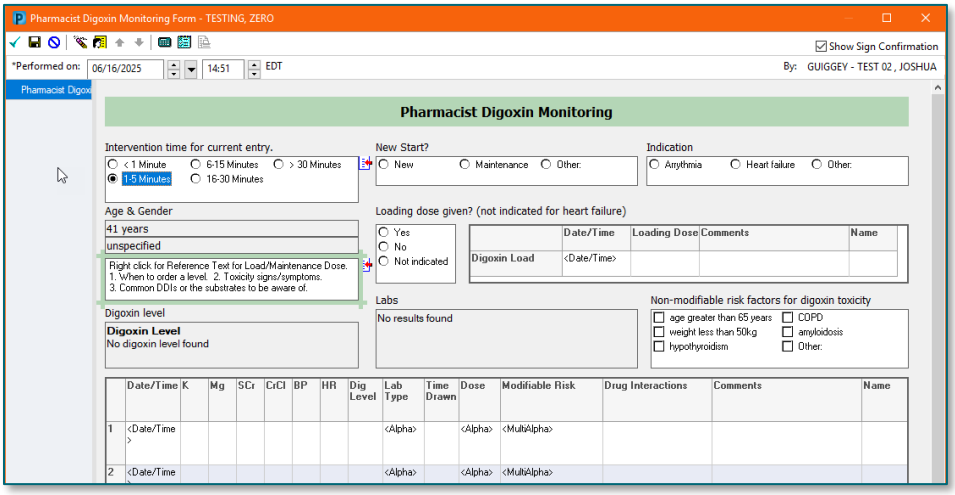
- All providers that use PowerChart Touch

Inpatient Only

New Digoxin Pharmacy to Monitor Consult

WHAT: A new **digoxin – Pharmacist to Monitor** consult order will be created with corresponding and linked **Pharmacist Digoxin Monitoring PowerForm**. The consult order will be triggered (via rule) upon entry of a digoxin order (all routes of administration and frequency).





- **digoxin – Pharmacy to Monitor** will be placed via rule with "Frequency: Tuesday and Friday."
- Reference text (via right-clicking) contains a hyperlink to the Pharmacy Resources page: Digoxin Dosing.
- Disclaimers regarding rule: If no active Consult order exists and a new Digoxin order is entered, a new consult order will be placed. Also: After administration or discontinuation of a Digoxin order, the Consult will not automatically discontinue.

NOTE: Continued digoxin therapy monitoring best practice is twice weekly. Pharmacy to Monitor Consults will have associated Tuesday and Friday Frequency.

WHY: To engage hospital pharmacists in clinical monitoring of digoxin and associated laboratory values.

WHEN: **Tuesday, June 24, 2025**

WHERE: **The change will affect the following venue(s):**

- Acute/Inpatient (to include ED & Peri-Op)

At the following NLH Member Organization(s):

- All NLH Hospitals (excluding Mayo)

WHO: **The change will affect the following staff at the above noted locations:**

- Inpatient Pharmacists

Fully Functional Allergy Component – PowerChart Touch – *Go-Live July 8*

WHAT: Providers will have the ability to add an allergy, convert a free-text allergy, document no known allergies and no known medication allergies, perform reverse allergy checking, mark allergies as reviewed, modify allergies, and review allergies.

For detailed information, please see the flyer.

WHY: The update enables full functionality of the allergy component, including reverse allergy checks, to support safe and effective prescribing.

WHEN: **Tuesday, July 8, 2025**

WHERE: **The change will affect the following venue(s):**

- Acute/Inpatient (to include ED & Peri-Op)
- Ambulatory/WIC

At the following NLH Member Organization(s):

- All NLH Hospitals

WHO: **The change will affect the following staff at the above noted locations:**

- All providers that use PowerChart Touch

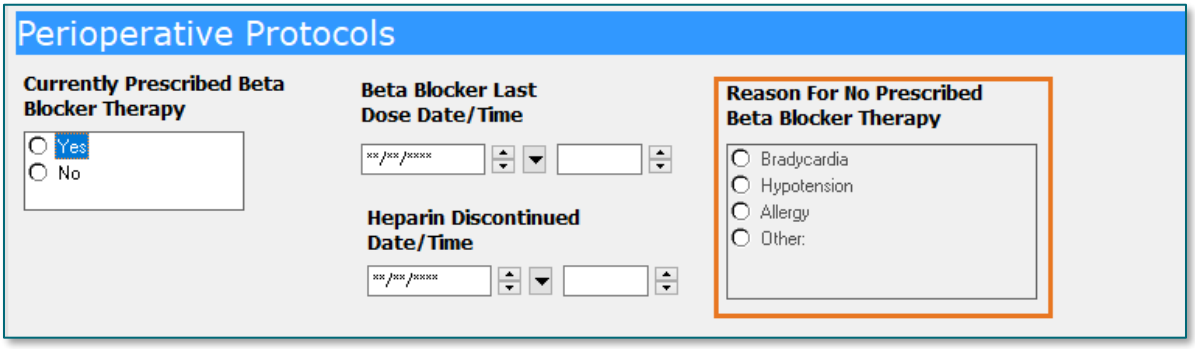
ED/IP Preprocedure Checklist PowerForm – Beta Blocker Updates

WHAT: The **ED/IP Preprocedure Checklist** PowerForm has updated the following:

Perioperative Protocols Section

- Include new documentation for reasons why a Beta Blocker Therapy was not prescribed.



WHY: The update will ensure that this will standardize documentation to ease extracting data to meet national registry reporting requirements.

WHEN: **Thursday, June 19, 2025**

WHERE: **The change will affect the following venue(s):**

- Acute/Inpatient (to include ED)

At the following NLH Member Organization(s):

- All NLH Hospitals (excluding Acadia and Mayo)

WHO: **The change will affect the following staff at the above noted locations:**

- Nursing

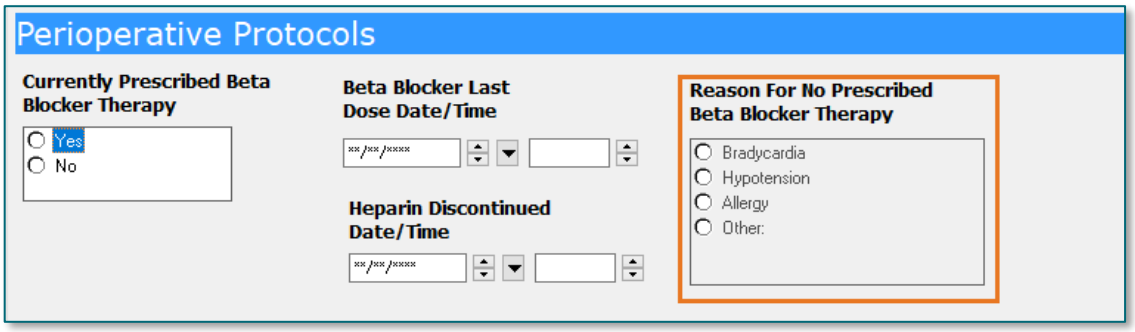
Peri-Op

Preprocedure Checklist PowerForm – Beta Blocker Updates

WHAT: The **Preprocedure Checklist** Form has updated the following:

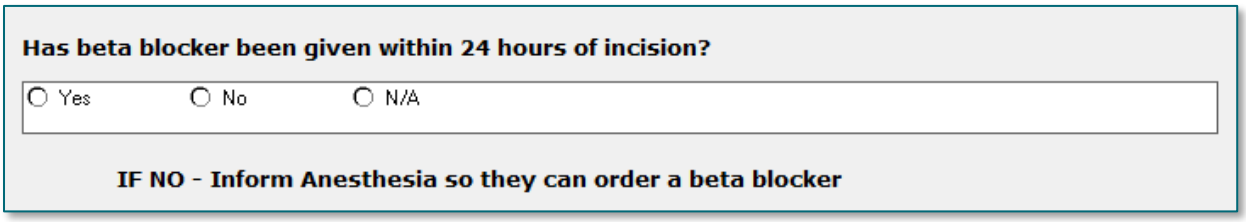
Perioperative Protocols Section

- Include new documentation for reasons why a Beta Blocker Therapy was not prescribed.



Cardiac Surgery Site Prep Section

- Include new documentation for whether a beta blocker has been given within 24 hours of incision.



WHY: The update will ensure that this will standardize documentation to ease extracting data to meet national registry reporting requirements.

WHEN: **Thursday, June 19, 2025**

WHERE: **The change will affect the following venue(s):**

- Peri-Op Only

At the following NLH Member Organization(s):

- All NLH Hospitals (excluding Acadia and Mayo)

WHO: **The change will affect the following staff at the above noted locations:**

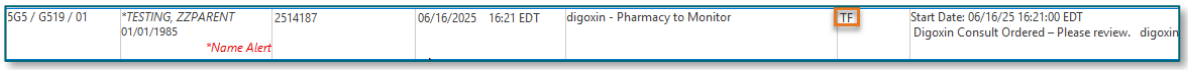
- Preop Nurses

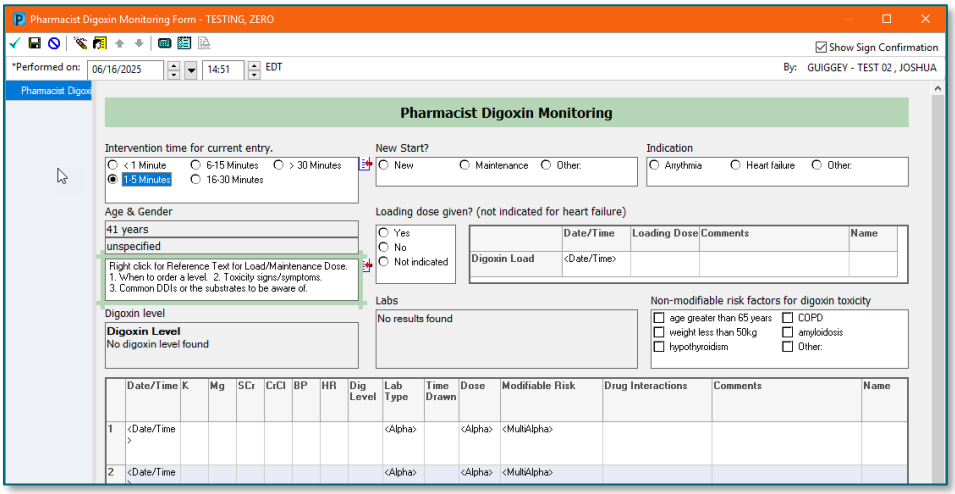
Pharmacists & Pharmacy Technicians

Inpatient/ED/Peri-Op

New Digoxin Pharmacy to Monitor Consult

WHAT: A new **digoxin – Pharmacy to Monitor** consult order will be created with corresponding and linked **Pharmacist Digoxin Monitoring PowerForm**. The consult order will be triggered (via rule) upon entry of a digoxin order (all routes of administration and frequency).





- **digoxin – Pharmacy to Monitor** will be placed via rule with "Frequency: Tuesday and Friday."
- Reference text (via right-clicking) contains a hyperlink to the Pharmacy Resources page: Digoxin Dosing.

- Disclaimers regarding rule: If no active Consult order exists and a new Digoxin order is entered, a new consult order will be placed. Also: After administration or discontinuation of a Digoxin order, the Consult will not automatically discontinue.

NOTE: Continued digoxin therapy monitoring best practice is twice weekly. Pharmacy to Monitor Consults will have associated Tuesday and Friday Frequency.

WHY: To engage hospital pharmacists in clinical monitoring of digoxin and associated laboratory values.
