NEW Vitals Last Five Auto Text

WHAT: A new auto text **/vitals_last_5_crossFIN*** will become available. The data will be pulled across FINs, making it easier to quickly review recent vital trends without manual lookup.

This auto text will automatically populate the last five vitals for:

- Blood pressure readings
- Oxygen saturation values
- Pulse rates

Date		Pulse Rate	
05/07/2026	15:26:00	65	
04/15/2026	12:48:00	125	
04/08/2026	12:55:00	60	
04/08/2026	11:30:00	62	
04/06/2026	17:16:00	68	

Date		Blood Pressure	
05/07/2026	15:26:00	125	/82
04/15/2026	12:48:00	140	/99
04/08/2026	12:55:00	122	/84
04/08/2026	11:30:00	128	/72
04/06/2026	17:16:00	135	/87

Date		Oxygen Saturation	
05/07/2026	15:26:00	98	
04/08/2026	12:55:00	98	
04/08/2026	11:30:00	99	
04/06/2026	17:16:00	99	
04/03/2026	11:05:00	95	

WHY: The auto text is intended to reduce manual data entry in clinical notes and increase documentation efficiency.

WHEN: Tuesday, June 2, 2026

WHERE: The change will affect the following venue(s):

- Acute/Inpatient
- Ambulatory/WIC
- ED
- Peri-Op

At the following NLH Member Organization(s):

- All NLH Hospitals (excluding Mayo)

WHO: The change will affect the following staff at the above noted locations:

- Clinical Staff
 - Providers
-

CDS Flyer Date	Venues Affected	CDS Tool	Summary
06/09/2026	Inpatient	OBG Postpartum Hemorrhage	CDS Review. Removal of unused orders
06/09/2026	Inpatient	Intra Aortic Balloon Pump IABP	CDS Review. New Intra Aortic Balloon Pump (IABP) order
06/09/2026	Inpatient	ANES Pre Anesthesia Adult	Expanded lab options, creating Labs Now and Additional Labs sections; replaced quantitative pregnancy test with qualitative test
06/10/2026	Ambulatory	AMB OBG Antepartum 24 to 28 Weeks	CDS review. Removed unused orders, added labs now recommended for repeat in third trimester

Imaging Staff & Radiologists

ORDERS UPDATE: Add Laterality to Tunneled Catheter with Port Orders

WHAT: A required laterality field will be added to the **Tunneled Catheter with Port Orders**. Available choices are **Inserting provider to determine**, **Left Chest**, and **Right Chest**.

Affected Orders

- SP CV Cath Tunneled Less than 5 Yrs
- SP CV Cath Tunneled More than 5 Yrs
- SP CV Cath Tun w/Port Less than 5 Yrs
- SP CV Cath Tun w/Port More than 5 Yrs

WHY: In the previous PDF-based ordering process, laterality was included in the order. After the transition to PowerPlans, that option is no longer available, which now requires staff to clarify laterality each time an order is entered.

Why This Matters

- Improves order completeness at the time of entry.
- Promotes clearer communication for teams performing the procedure.
- Reduces repeated clarification requests.
- Supports a more efficient ordering and scheduling workflow.

WHEN: Wednesday, June 3, 2026

WHERE: The change will affect the following venue(s):

- Acute/Inpatient (to include ED & Peri-Op)
- Ambulatory/WIC

At the following NLH Member Organization(s):

- All NLH Hospitals (excluding Acadia and Mayo)

WHO: The change will affect the following staff at the above noted locations:

- Clinical Staff
- Imaging Staff
- Ordering Providers

Leadership

Ambulatory/WIC

Retiring of Infusion Clinic iView Bands

WHAT: Documentation across Infusion Centers is being standardized by transitioning all locations from infusion clinic – specific iView bands to the **Infusion–Oncology iView band**.

As part of this transition, the following iView bands will be retired:

- Infusion Clinic Lines, Drains, and Tubes
- Infusion Clinic Nursing Assessment
- Infusion Clinic Vital Measures
- Infusion Treatment
- Infusion Center
- Infusion Clinic Discharge
- Infusion Clinic Treatment

NOTE: The **Infusion Plan of Care** band will **not** be retired.

EHR Updates

Week of May 28 – June 3, 2026

Page 8 of 34

Questions About the Transition?

Please refer to the [FAQ](#) which provides detailed information about the transition to the Infusion-Oncology iView band, including documentation changes.

WHY: The current **Infusion Clinic Lines and Tubes** iView band contains older versions of several dynamic groups, including Central Line, GI Tubes, and Urinary Catheter. Other venues within the system are using updated versions of these same dynamic group sections. These inconsistencies have made it challenging for staff to quickly locate documentation across venues and encounters.

As part of the Oncology Project in 2023, the **Infusion–Oncology** iView band was created for the oncology locations. This updated band was designed to consolidate documentation into a single, standardized band to streamline documentation, enhance visibility across all locations, improve workflow efficiency, and support consistent documentation practices system-wide.

Transitioning the infusion centers to the Infusion–Oncology band will bring these same benefits, supporting a more unified and efficient documentation experience across all infusion locations.

WHEN: Tuesday, June 2, 2026

WHERE: The change will affect the following venue(s):

PCP Colonoscopy Screening Referral Update – SVH – *Effective June 8*

WHAT: SVH Primary Care Providers will begin using the following referral order for colonoscopy screening:

**Referral Order Medical Service: Gastroenterology – Procedure PCP,
Reason: Colonoscopy Screening**

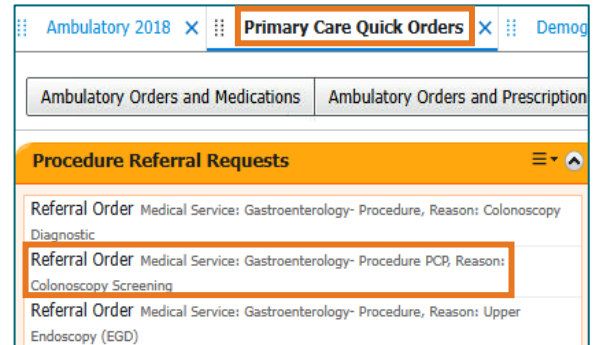

EHR Updates

Week of May 28 – June 3, 2026

Page 14 of 34

This order is located in the **Procedure Referral Request** component on **Primary Care Quick Orders** MPage.

NOTE: The previous order – **Referral Order Medical Service: General Surgery, Reason: Colonoscopy Screening** – will no longer be used for colonoscopy screenings.

The Digital Care platform will be utilized to generate an email to the patient when the referral order is placed. This email includes an embedded link directing the patient to complete a scheduling questionnaire to initiate the procedure scheduling process.

NOTE: Patient must have an email address on file.

Click [here](#) to review the workflow for ordering the procedure and verifying if the email with the embedded link was generated.

NOTE: Order favorites will need to be updated. Click [here](#) for more information on how to manage order favorites.

WHY: This update will increase order entry efficiency for providers, ensure referrals reach the correct team, and help reduce delays in patient care.

WHEN: Monday, June 8, 2026

WHERE: The change will affect the following venue(s):

- Ambulatory Primary Care

At the following NLH Member Organization(s):

- NL Physician Practice Central Ops – SVH (Review questionnaire responses)
 - NL Primary Care – Clinton
 - NL Primary Care – Newport
 - NL Primary Care – Newport RHC
 - NL Primary Care – Pittsfield
 - NL Primary Care – Unity
-

WHO: The change will affect the following staff at the above noted locations:

- Clerical Staff
- Clinical Staff
- Providers

04/03/2026	11:05:00	95	

WHY: The auto text is intended to reduce manual data entry in clinical notes and increase documentation efficiency.

WHEN: Tuesday, June 2, 2026

WHERE: The change will affect the following venue(s):

- Acute/Inpatient
- Ambulatory/WIC
- ED
- Peri-Op

At the following NLH Member Organization(s):

- All NLH Hospitals (excluding Mayo)

WHO: The change will affect the following staff at the above noted locations:

- Clinical Staff
 - Providers
-

ORDERS UPDATE: Add Laterality to Tunneled Catheter with Port Orders

WHAT: A **required laterality field** will be added to the **Tunneled Catheter with Port Orders**. Available choices are **Inserting provider to determine**, **Left Chest**, and **Right Chest**.

Affected Orders

- SP CV Cath Tunneled Less than 5 Yrs
- SP CV Cath Tunneled More than 5 Yrs
- SP CV Cath Tun w/Port Less than 5 Yrs
- SP CV Cath Tun w/Port More than 5 Yrs

WHY: In the previous PDF-based ordering process, laterality was included in the order. After the transition to PowerPlans, that option is no longer available, which now requires staff to clarify laterality each time an order is entered.

Why This Matters

- Improves order completeness at the time of entry.
- Promotes clearer communication for teams performing the procedure.
- Reduces repeated clarification requests.
- Supports a more efficient ordering and scheduling workflow.

WHEN: **Wednesday, June 3, 2026**

WHERE: **The change will affect the following venue(s):**

- Acute/Inpatient (to include ED & Peri-Op)
- Ambulatory/WIC

At the following NLH Member Organization(s):

- All NLH Hospitals (excluding Acadia and Mayo)

WHO: **The change will affect the following staff at the above noted locations:**

- Clinical Staff
 - Imaging Staff
 - Ordering Providers
-

Patient Service Representatives

Ambulatory/WIC Only

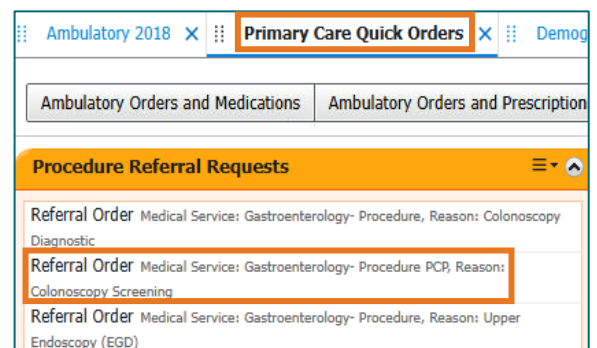

PCP Colonoscopy Screening Referral Update – SVH – **Effective June 8**

WHAT: SVH Primary Care Providers will begin using the following referral order for colonoscopy screening:

**Referral Order Medical Service: Gastroenterology – Procedure PCP,
Reason: Colonoscopy Screening**

This order is located in the **Procedure Referral Request** component on **Primary Care Quick Orders** MPage.

NOTE: The previous order – **Referral Order Medical Service: General Surgery, Reason: Colonoscopy Screening** – will no longer be used for colonoscopy screenings.

The Digital Care platform will be utilized to generate an email to the patient when the referral order is placed. This email includes an embedded link directing the patient to complete a scheduling questionnaire to initiate the procedure scheduling process.

NOTE: Patient must have an email address on file.

Click [here](#) to review the workflow for ordering the procedure and verifying if the email with the embedded link was generated.

NOTE: Order favorites will need to be updated. Click [here](#) for more information on how to manage order favorites.

WHY: This update will increase order entry efficiency for providers, ensure referrals reach the correct team, and help reduce delays in patient care.

WHEN: Monday, June 8, 2026

WHERE: The change will affect the following venue(s):

- Ambulatory Primary Care
-

At the following NLH Member Organization(s):

- NL Physician Practice Central Ops – SVH (Review questionnaire responses)
- NL Primary Care – Clinton
- NL Primary Care – Newport
- NL Primary Care – Newport RHC
- NL Primary Care – Pittsfield
- NL Primary Care – Unity

WHO: The change will affect the following staff at the above noted locations:

- Clerical Staff
- Clinical Staff
- Providers

Pharmacists & Pharmacy Technicians

Ambulatory/WIC

NEW Vitals Last Five Auto Text

WHAT: A new auto text **/vitals_last_5_crossFIN*** will become available. The data will be pulled across FINs, making it easier to quickly review recent vital trends without manual lookup.

This auto text will automatically populate the last five vitals for:

- Blood pressure readings
- Oxygen saturation values
- Pulse rates

Date		Pulse Rate
05/07/2026	15:26:00	65
04/15/2026	12:48:00	125
04/08/2026	12:55:00	60
