Education Open (Deadline May 30): Modernized Vitals and Clinical Entry Workspace

WHAT: The Modernized Vital Sign component and Clinical Entry Workspace will be implemented within the Workflow MPages.

Modernized Vital Sign Component

- The Modernized Vital Sign component will allow documentation of:
  - Vital Signs
  - Pain Location, Pain Scale, and Pain Score
  - Measurements
- **Temperature** and **Temperature Method** will be combined in one documentation field in the Vital Signs component, Interactive View and I&O, and PowerForms.

Clinical Entry Workspace

- Located on the right side of the MPages.
- Providers and nurses will document components that feed their Dynamic Documentation Notes and the Patient Discharge Summary.
- Provides an efficient method to search for and open PowerForms.
  - PowerForms can be saved as a favorite.
- View PowerForm documentation.
- Modification of documentation from the Vital Sign component and PowerForms can be performed within this space.

WHY: Implementing Modernized Vital Signs Component and Clinical Entry Workspace within the MPage is the first step towards new functionality called Integrated Charting. Integrated Charting provides workflow efficiencies.

WHEN: **Monday, June 2, 2025**

WHERE: **The change will affect the following venue(s):**
- Acute/Inpatient (to include ED & Peri-Op)
- Ambulatory/WIC

At the following NLH Member Organization(s):
- All NLH Member Organizations (excluding Mayo)

WHO: **The change will affect the following staff:**
- Ambulatory RNs and LPNs
- Clinical Staff
- Imaging
- MAs
- Nurses
- Nurse Techs
- Providers
- Rehab and Respiratory Therapy

EDUCATION STRATEGY:

Online Promise Point Simulation Education Available Now!

All PowerForm and Dynamic Documentation Users
- Curriculum Name: Clinical Entry Workspace
  - NOLH-1840.15 PCTRV Use the Clinical Entry Workspace
    - Duration 6 minutes

Inpatient and Surgical Clinical Staff
- Curriculum Name: Modernized Vitals-Clinical v1
  - NOLH-1030 ACTAMB Document from the Vital Signs Component
    - Duration 29 minutes
  - NOLH-1040 ACTAMB Document Vital Signs in iView
    - Duration 4 minutes

Ambulatory and ED Clinical Staff
- Curriculum: Modernized Vitals-Clinical v2
  - NOLH-1030 ACTAMB Document from the Vital Signs Component
    - Duration 29 mins!

- NOLH-1035 ACTAMB Document Temperature in a PowerForm
  - Duration 2 mins!

- NOLH-1040 ACTAMB Document Vital Signs in iView
  - Duration 4 mins!

IMPORTANT: Video education must be completed before go-live.

KEY UPCOMING DATES:

Date: May 5	**PromisePoint Simulation Education Opens**
Date: May 30	**DUE: All Assigned Education**
Date: June 2	**Go-Live Focused Rounding by Health Informatics**

A Note of Thanks

Learning how to use the new tools and workflows is the first step towards adoption. True adoption will help us care for our patients and grow within our expanding, highly connected health system. Your partnership is key to making this a reality and we appreciate your ongoing support.

Banner Bar Updates

WHAT: The Banner Bar custom fields will be updated to include BMAT (Bedside Mobility Assessment) and Delirium Scores. With this change, ACO and COVID will be removed.

Alternative Location for COVID

- COVID Information can be found:
  - **Orders Component:** will display any orders placed for a COVID swab.
  - **Results Review:** will show the results of any COVID test taken.
  - **Lab Flowsheet component on MPages:** will show COVID testing results.
- Isolation information will also fire to the Banner Bar to inform staff of a Modified Contact/Droplet precaution.

Alternative Location to find ACO (Accountable Care Organization)

- ACO can be found in the Insurance tab of the patient chart for those needing that information.

WHY: **Quick View. Better Care.**

BMAT and **Delirium** status are now visible in the banner bar – giving providers real-time insight into **mobility and cognitive status** at the point of care.
Why it matters:

- Enhances visibility to our patients at risk for falls, pressure injuries, deconditioning, and promotes early and frequent mobilization, reducing length of stay!
- Promotes early detection of delirium – a driver of longer stays and worse patient outcomes.
- Supports safer medication use and better discharge planning.
- Enhances team communication across nursing, therapy, and providers.

The upgrade strengthens clinical decision-making and supports safer, more coordinated care to facilitate better patient outcomes.

WHEN: **Tuesday, May 27, 2025**

WHERE: **The change will affect the following venue(s):**
- Acute/Inpatient (to include ED & Peri-Op)
- Ambulatory/WIC

At the following NLH Member Organization(s):
- All NLH Hospitals (excluding Mayo)

WHO: **The change will affect the following staff at the above noted locations:**
- All Clinical Staff

Go-Live Announcement: Modernized Vital Sign Component and Clinical Entry Workspace

WHAT: ### Modernized Vital Sign Component

- Current **Vital Signs** component is being replaced with a new **Vital Signs** component which **allows charting** from within the component for:
  - Vital Signs
  - Measurements
  - Pain Location and Pain Scale/Score
- **Temperature** and **Temperature Method** will be combined in one documentation field in the Vital Signs component, Interactive View and I&O, and PowerForms.

NOTE: The current workflow should be maintained for documenting Vital Signs and Measurements obtained during Admission, Intake, or Triage.

Click here for more information on the new Vital Signs component.

Clinical Entry Workspace

- **Providers** will document MPage components that populate **Dyn Doc** notes from the **Charting** section within **Clinical Entry Workspace**.

- Nurses will document the Wound Care Instructions component in the Discharge MPage (tab) from the Charting section within Clinical Entry Workspace.
- **PowerForms** will be **accessed from Clinical Entry Workspace** where frequently used forms can be made a favorite for quick access.
  - o PowerForms will not be accessed from the Vital Sign component.

Click here for more information on Clinical Entry Workspace.

WHY: Implementing Modernized Vital Signs Component and Clinical Entry Workspace within the MPage is the first step towards new functionality called Integrated Charting. Integrated Charting provides workflow efficiencies.

WHEN: **Monday, June 2, 2025**

WHERE: **The change will affect the following venue(s):**
- Acute/Inpatient (to include ED & Peri-Op)
- Ambulatory/WIC

At the following NLH Member Organization(s):
- All NLH Hospitals (excluding Mayo)

WHO: **The change will affect the following staff at the above noted locations:**
- ALL Providers
- ALL Clinical Staff
- Ambulatory RNs and LPNs
- Imaging
- MAs
- Nurses
- Nurse Techs
- Rehab and Respiratory Therapy

    - If PromisePoint password has been previously set-up, please use that password.
  - **Need a password reset?** Click this link to reach out to Health Informatics (resets are available M-F, 08:00-16:30).

IMPORTANT: Video education must be completed before go-live.

KEY UPCOMING DATES:

Date: May 5	PromisePoint Simulation Education Opens
Date: May 30	DUE: All Assigned Education
Date: June 2	Go-Live Focused Rounding by Health Informatics

A Note of Thanks

Learning how to use the new tools and workflows is the first step towards adoption. True adoption will help us care for our patients and grow within our expanding, highly connected health system. Your partnership is key to making this a reality and we appreciate your ongoing support.

Inpatient

Education Open (Deadline May 30): Modernized Vitals and Clinical Entry Workspace

WHAT: The Modernized Vital Sign component and Clinical Entry Workspace will be implemented within the Workflow MPages.

Modernized Vital Sign Component

- The Modernized Vital Sign component will allow documentation of:
  - Vital Signs
  - Pain Location, Pain Scale, and Pain Score
  - Measurements

- **Temperature** and **Temperature Method** will be combined in one documentation field in the Vital Signs component, Interactive View and I&O, and PowerForms.

Clinical Entry Workspace

- Located on the right side of the MPages.

- Providers and nurses will document components that feed their Dynamic Documentation Notes and the Patient Discharge Summary.

- Provides an efficient method to search for and open PowerForms.
  - PowerForms can be saved as a favorite.

- View PowerForm documentation.

- Modification of documentation from the Vital Sign component and PowerForms can be performed within this space.

WHY: Implementing Modernized Vital Signs Component and Clinical Entry Workspace within the MPage is the first step towards new functionality called Integrated Charting. Integrated Charting provides workflow efficiencies.

WHEN: **Monday, June 2, 2025**

WHERE: **The change will affect the following venue(s):**
- Acute/Inpatient (to include ED & Peri-Op)
- Ambulatory/WIC

At the following NLH Member Organization(s):
- All NLH Member Organizations (excluding Mayo)

WHO: **The change will affect the following staff:**
- Ambulatory RNs and LPNs
- Clinical Staff
- Imaging
- MAs
- Nurses
- Nurse Techs
- Providers
- Rehab and Respiratory Therapy

EDUCATION STRATEGY: **Online Promise Point Simulation Education <u>Available Now!</u>**

All PowerForm and Dynamic Documentation Users
- Curriculum Name: Clinical Entry Workspace
  - NOLH-1840.15 PCTRV Use the Clinical Entry Workspace
    - Duration 6 minutes

Inpatient and Surgical Clinical Staff
- Curriculum Name: Modernized Vitals-Clinical v1
  - NOLH-1030 ACTAMB Document from the Vital Signs Component
    - Duration 29 minutes
  - NOLH-1040 ACTAMB Document Vital Signs in iView
    - Duration 4 minutes

Ambulatory and ED Clinical Staff
- Curriculum: Modernized Vitals-Clinical v2
  - NOLH-1030 ACTAMB Document from the Vital Signs Component
    - Duration 29 mins!

- NOLH-1035 ACTAMB Document Temperature in a PowerForm
  - Duration 2 mins!

- NOLH-1040 ACTAMB Document Vital Signs in iView
  - Duration 4 mins!

Banner Bar Updates

WHAT: The Banner Bar custom fields will be updated to include BMAT (Bedside Mobility Assessment) and Delirium Scores. With this change, ACO and COVID will be removed.

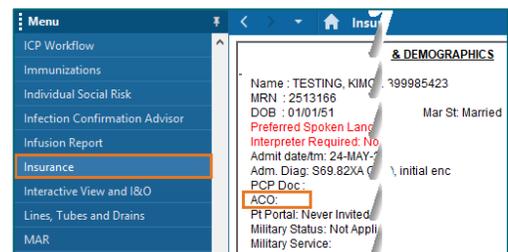

Alternative Location for COVID

- COVID Information can be found:
  - **Orders Component:** will display any orders placed for a COVID swab.
  - **Results Review:** will show the results of any COVID test taken.
  - **Lab Flowsheet component on MPages:** will show COVID testing results.
- Isolation information will also fire to the Banner Bar to inform staff of a Modified Contact/Droplet precaution.

Alternative Location to find ACO (Accountable Care Organization)

- ACO can be found in the Insurance tab of the patient chart for those needing that information.

WHY: **Quick View. Better Care.**

BMAT and **Delirium** status are now visible in the banner bar – giving providers real-time insight into **mobility and cognitive status** at the point of care.
Why it matters:
- Enhances visibility to our patients at risk for falls, pressure injuries, deconditioning, and promotes early and frequent mobilization, reducing length of stay!
- Promotes early detection of delirium – a driver of longer stays and worse patient outcomes.
- Supports safer medication use and better discharge planning.
- Enhances team communication across nursing, therapy, and providers.

The upgrade strengthens clinical decision-making and supports safer, more coordinated care to facilitate better patient outcomes.

WHEN: **Tuesday, May 27, 2025**

WHERE: **The change will affect the following venue(s):**
- Acute/Inpatient (to include ED & Peri-Op)
- Ambulatory/WIC

At the following NLH Member Organization(s):
- All NLH Hospitals (excluding Mayo)

WHO: **The change will affect the following staff at the above noted locations:**
- All Clinical Staff

Go-Live Announcement: Modernized Vital Sign Component and Clinical Entry Workspace

WHAT: **Modernized Vital Sign Component**

- Current **Vital Signs** component is being replaced with a new **Vital Signs** component which **allows charting** from within the component for:
  - Vital Signs
  - Measurements
  - Pain Location and Pain Scale/Score
- **Temperature** and **Temperature Method** will be combined in one documentation field in the Vital Signs component, Interactive View and I&O, and PowerForms.

NOTE: The current workflow should be maintained for documenting Vital Signs and Measurements obtained during Admission, Intake, or Triage.

Click here for more information on the new Vital Signs component.

Clinical Entry Workspace

- **Providers** will document MPage components that populate **Dyn Doc** notes from the **Charting** section within **Clinical Entry Workspace**.

- Nurses will document the Wound Care Instructions component in the Discharge MPage (tab) from the Charting section within Clinical Entry Workspace.
- **PowerForms** will be **accessed from Clinical Entry Workspace** where frequently used forms can be made a favorite for quick access.
  - PowerForms will not be accessed from the Vital Sign component.

Click here for more information on Clinical Entry Workspace.

WHY: Implementing Modernized Vital Signs Component and Clinical Entry Workspace within the MPage is the first step towards new functionality called Integrated Charting. Integrated Charting provides workflow efficiencies.

WHEN: **Monday, June 2, 2025**

WHERE: **The change will affect the following venue(s):**

HOW:

Required Online Education in the PromisePoint Community

- **Online Simulator Education – Available Now!**
  - **URL:**
    www.promisepoint.com/northernlighthealth
  - **Username:**
    - **NLH Employees:** Seven-digit employee number with leading zeros, e.g., 0098765
    - **Contracted Employees:** Username provided at the time of hire
  - **Initial Password:** password
    - Initial password is all lowercase.
    - If PromisePoint password has been previously set-up, please use that password.
  - **Need a password reset?** Click this link to reach out to Health Informatics (resets are available M-F, 08:00-16:30).

IMPORTANT: Video education must be completed before go-live.

KEY UPCOMING DATES:

Date: May 5	**PromisePoint Simulation Education Opens**
Date: May 30	**DUE: All Assigned Education**
Date: June 2	**Go-Live Focused Rounding by Health Informatics**

A Note of Thanks

Learning how to use the new tools and workflows is the first step towards adoption. True adoption will help us care for our patients and grow within our expanding, highly connected health system. Your partnership is key to making this a reality and we appreciate your ongoing support.

Banner Bar Updates

WHAT: The Banner Bar custom fields will be updated to include BMAT (Bedside Mobility Assessment) and Delirium Scores. With this change, ACO and COVID will be removed.

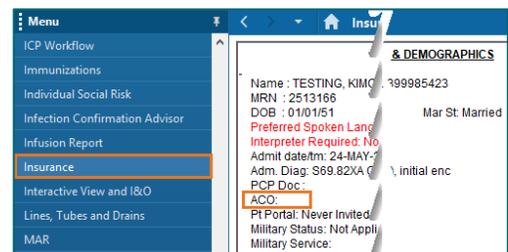

Alternative Location for COVID

- COVID Information can be found:
  - **Orders Component:** will display any orders placed for a COVID swab.
  - **Results Review:** will show the results of any COVID test taken.
  - **Lab Flowsheet component on MPages:** will show COVID testing results.
- Isolation information will also fire to the Banner Bar to inform staff of a Modified Contact/Droplet precaution.

Alternative Location to find ACO (Accountable Care Organization)

- ACO can be found in the Insurance tab of the patient chart for those needing that information.

WHY: **Quick View. Better Care.**

BMAT and **Delirium** status are now visible in the banner bar – giving providers real-time insight into **mobility and cognitive status** at the point of care.
Why it matters:

- Enhances visibility to our patients at risk for falls, pressure injuries, deconditioning, and promotes early and frequent mobilization, reducing length of stay!
- Promotes early detection of delirium – a driver of longer stays and worse patient outcomes.
- Supports safer medication use and better discharge planning.
- Enhances team communication across nursing, therapy, and providers.

The upgrade strengthens clinical decision-making and supports safer, more coordinated care to facilitate better patient outcomes.

WHEN: **Tuesday, May 27, 2025**

WHERE: **The change will affect the following venue(s):**
- Acute/Inpatient (to include ED & Peri-Op)
- Ambulatory/WIC

At the following NLH Member Organization(s):
- All NLH Hospitals (excluding Mayo)

WHO: **The change will affect the following staff at the above noted locations:**
- All Clinical Staff

Go-Live Announcement: Modernized Vital Sign Component and Clinical Entry Workspace

WHAT: ### Modernized Vital Sign Component

- Current **Vital Signs** component is being replaced with a new **Vital Signs** component which **allows charting** from within the component for:
  - Vital Signs
  - Measurements
  - Pain Location and Pain Scale/Score
- **Temperature** and **Temperature Method** will be combined in one documentation field in the Vital Signs component, Interactive View and I&O, and PowerForms.

NOTE: The current workflow should be maintained for documenting Vital Signs and Measurements obtained during Admission, Intake, or Triage.

Click here for more information on the new Vital Signs component.

Clinical Entry Workspace

- **Providers** will document MPage components that populate **Dyn Doc** notes from the **Charting** section within **Clinical Entry Workspace**.

- Nurses will document the Wound Care Instructions component in the Discharge MPage (tab) from the Charting section within Clinical Entry Workspace.
- **PowerForms** will be **accessed from Clinical Entry Workspace** where frequently used forms can be made a favorite for quick access.
    - PowerForms will not be accessed from the Vital Sign component.

Click here for more information on Clinical Entry Workspace.

WHY: Implementing Modernized Vital Signs Component and Clinical Entry Workspace within the MPage is the first step towards new functionality called Integrated Charting. Integrated Charting provides workflow efficiencies.

WHEN: **Monday, June 2, 2025**

WHERE: **The change will affect the following venue(s):**
- Acute/Inpatient (to include ED & Peri-Op)
- Ambulatory/WIC

At the following NLH Member Organization(s):

Education Open <mark>(Deadline May 30)</mark>: Modernized Vitals and Clinical Entry Workspace

WHAT: The Modernized Vital Sign component and Clinical Entry Workspace will be implemented within the Workflow MPages.

Modernized Vital Sign Component

- The Modernized Vital Sign component will allow documentation of:
    - Vital Signs
    - Pain Location, Pain Scale, and Pain Score
    - Measurements
- **Temperature** and **Temperature Method** will be combined in one documentation field in the Vital Signs component, Interactive View and I&O, and PowerForms.

Clinical Entry Workspace

- Located on the right side of the MPages.
- Providers and nurses will document components that feed their Dynamic Documentation Notes and the Patient Discharge Summary.
- Provides an efficient method to search for and open PowerForms.
    - PowerForms can be saved as a favorite.
- View PowerForm documentation.
- Modification of documentation from the Vital Sign component and PowerForms can be performed within this space.

WHY: Implementing Modernized Vital Signs Component and Clinical Entry Workspace within the MPage is the first step towards new functionality called Integrated Charting. Integrated Charting provides workflow efficiencies.

Clinical Entry Workspace – Dyn Doc Users – MUST Complete One Time Set Up

WHAT: **Clinical Entry Workspace**

- **Providers** will document MPage components that populate **Dyn Doc** notes from the **Clinical Entry** section within **Clinical Entry Workspace**.
- **Dyn Doc** MPage components are no longer seen in the MPage menu.
- **PowerForms** will be **accessed from Clinical Entry Workspace** where frequently used forms can be made a favorite for quick access.
 - PowerForms will not be accessed from the Vital Sign component.

DYN DOC Users: ONE TIME Set Up Step REQUIRED PER MPage

- The first time Provider View is opened, based on computer screen resolution and monitor size, an **Information alert** will populate prompting the user to open **Clinical Entry Workspace** by clicking the **Toggle Workspace icon** or by clicking **Open Workspace**.
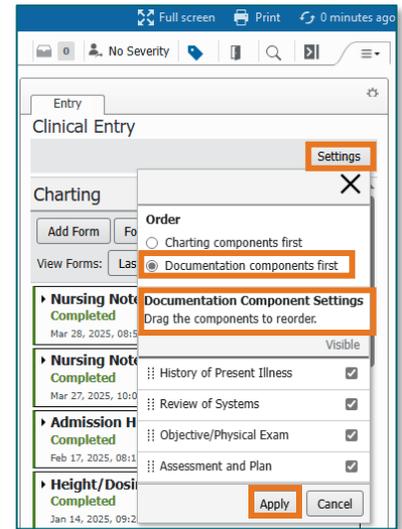

**NOTE:** This notification will appear only once.

- With **Clinical Entry Workspace** open:
  - Click the **Settings** button and select **Documentation components first** to bring components to the top of Clinical Entry Workspace.
  - Drag the **components to reorder** them to the preferred workflow.
  - Click **Apply**.

Using Clinical Entry Workspace

- **Custom auto text dropdowns** can be **edited** from **Clinical Entry Workspace**.

  - While using the **customized auto text** (created by the user), click **Edit** to:

    - Modify existing dropdown options,
    - Add a new option, or
    - Remove an option.

  - Click **Apply** to save the changes.

NOTE: If an auto text is not working within Clinical Entry Workspace, open the dynamic documentation note and insert the auto text within the body of the note.

Click here for more information on Clinical Entry Workspace.

Modernized Vital Sign Component

- Current **Vital Signs** component is being replaced with a new **Vital Signs** component which **allows charting** from within the component for:

- o Vital Signs
- o Measurements
- o Pain Location and Pain Scale/Score

- **Temperature** and **Temperature Method** will be combined in one documentation field in the Vital Signs component, Interactive View and I&O, and PowerForms.

  - **Username:**
    - **NLH Employees:** Seven-digit employee number with leading zeros, e.g., 0098765
    - **Contracted Employees:** Username provided at the time of hire
  - **Initial Password:** password
    - Initial password is all lowercase.
    - If PromisePoint password has been previously set-up, please use that password.
  - **Need a password reset?** Click this link to reach out to Health Informatics (resets are available M-F, 08:00-16:30).

IMPORTANT: Video education must be completed before go-live.

KEY UPCOMING DATES:		
	Date: May 5	**PromisePoint Simulation Education Opens**
	Date: May 30	**DUE: All Assigned Education**
	Date: June 2	**Go-Live Focused Rounding by Health Informatics**

A Note of Thanks

Learning how to use the new tools and workflows is the first step towards adoption. True adoption will help us care for our patients and grow within our expanding, highly connected health system. Your partnership is key to making this a reality and we appreciate your ongoing support.

Banner Bar Updates

WHAT: The Banner Bar custom fields will be updated to include BMAT (Bedside Mobility Assessment) and Delirium Scores. With this change, ACO and COVID will be removed.

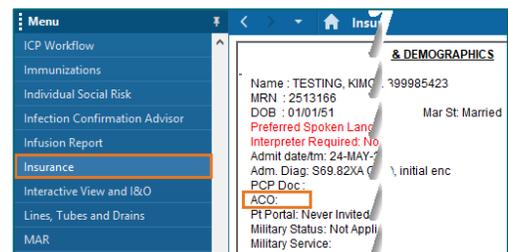

Alternative Location for COVID

- COVID Information can be found:
  - **Orders Component:** will display any orders placed for a COVID swab.
  - **Results Review:** will show the results of any COVID test taken.
  - **Lab Flowsheet component on MPages:** will show COVID testing results.
- Isolation information will also fire to the Banner Bar to inform staff of a Modified Contact/Droplet precaution.

Alternative Location to find ACO (Accountable Care Organization)

- ACO can be found in the Insurance tab of the patient chart for those needing that information.

WHY: **Quick View. Better Care.**

BMAT and **Delirium** status are now visible in the banner bar – giving providers real-time insight into **mobility and cognitive status** at the point of care.
Why it matters:

- Enhances visibility to our patients at risk for falls, pressure injuries, deconditioning, and promotes early and frequent mobilization, reducing length of stay!
- Promotes early detection of delirium – a driver of longer stays and worse patient outcomes.
- Supports safer medication use and better discharge planning.
- Enhances team communication across nursing, therapy, and providers.

The upgrade strengthens clinical decision-making and supports safer, more coordinated care to facilitate better patient outcomes.

WHEN: **Tuesday, May 27, 2025**

WHERE: **The change will affect the following venue(s):**
- Acute/Inpatient (to include ED & Peri-Op)
- Ambulatory/WIC

At the following NLH Member Organization(s):
- All NLH Hospitals (excluding Mayo)

WHO: **The change will affect the following staff at the above noted locations:**
- All Clinical Staff

Clinical Entry Workspace – Dyn Doc Users – MUST Complete One Time Set Up

WHAT: **Clinical Entry Workspace**

- **Providers** will document MPage components that populate **Dyn Doc** notes from the **Clinical Entry** section within **Clinical Entry Workspace**.

- **Dyn Doc** MPage components are no longer seen in the MPage menu.

- **PowerForms** will be **accessed from Clinical Entry Workspace** where frequently used forms can be made a favorite for quick access.

 o PowerForms will not be accessed from the Vital Sign component.

DYN DOC Users: ONE TIME Set Up Step REQUIRED PER MPage

- The first time Provider View is opened, based on computer screen resolution and monitor size, an **Information alert** will populate prompting the user to open **Clinical Entry Workspace** by clicking the **Toggle Workspace icon** or by clicking **Open Workspace**.
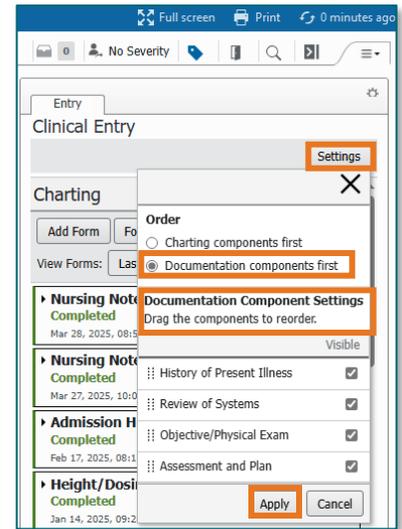

**NOTE:** This notification will appear only once.

- With **Clinical Entry Workspace** open:
  - Click the **Settings** button and select **Documentation components first** to bring components to the top of Clinical Entry Workspace.
  - Drag the **components to reorder** them to the preferred workflow.
  - Click **Apply**.

Using Clinical Entry Workspace

- **Custom auto text dropdowns** can be **edited** from **Clinical Entry Workspace**.

  - While using the **customized auto text** (created by the user), click **Edit** to:

    - Modify existing dropdown options,
    - Add a new option, or
    - Remove an option.

  - Click **Apply** to save the changes.

NOTE: If an auto text is not working within Clinical Entry Workspace, open the dynamic documentation note and insert the auto text within the body of the note.

Click here for more information on Clinical Entry Workspace.

Modernized Vital Sign Component

- Current **Vital Signs** component is being replaced with a new **Vital Signs** component which **allows charting** from within the component for:

- o Vital Signs
- o Measurements
- o Pain Location and Pain Scale/Score

- **Temperature** and **Temperature Method** will be combined in one documentation field in the Vital Signs component, Interactive View and I&O, and PowerForms.

NOTE: The current workflow should be maintained for documenting Vital Signs and Measurements obtained during Admission, Intake, or Triage.

Click here for more information on the new Vital Signs component.

WHY: Implementing Modernized Vital Signs Component and Clinical Entry Workspace within the MPage is the first step towards new functionality called Integrated Charting. Integrated Charting provides workflow efficiencies.

WHEN: **Monday, June 2, 2025**

WHERE: **The change will affect the following venue(s):**
- Acute/Inpatient (to include ED & Peri-Op)
- Ambulatory/WIC

At the following NLH Member Organization(s):
- All NLH Hospitals (excluding Mayo)

WHO: **The change will affect the following staff at the above noted locations:**
- All Providers

Peri-Op

Education Open (Deadline May 30): Modernized Vitals and Clinical Entry Workspace

WHAT: The Modernized Vital Sign component and Clinical Entry Workspace will be implemented within the Workflow MPages.

Modernized Vital Sign Component

- The Modernized Vital Sign component will allow documentation of:
    - Vital Signs
    - Pain Location, Pain Scale, and Pain Score
    - Measurements

- **Temperature** and **Temperature Method** will be combined in one documentation field in the Vital Signs component, Interactive View and I&O, and PowerForms.

Clinical Entry Workspace

- Located on the right side of the MPages.

- Providers and nurses will document components that feed their Dynamic Documentation Notes and the Patient Discharge Summary.

- Provides an efficient method to search for and open PowerForms.
    - PowerForms can be saved as a favorite.

- View PowerForm documentation.

- Modification of documentation from the Vital Sign component and PowerForms can be performed within this space.

WHY: Implementing Modernized Vital Signs Component and Clinical Entry Workspace within the MPage is the first step towards new functionality called Integrated Charting. Integrated Charting provides workflow efficiencies.

WHEN: **Monday, June 2, 2025**

WHERE: **The change will affect the following venue(s):**
- Acute/Inpatient (to include ED & Peri-Op)
- Ambulatory/WIC

At the following NLH Member Organization(s):
- All NLH Member Organizations (excluding Mayo)

WHO: **The change will affect the following staff:**

- Ambulatory RNs and LPNs
- Clinical Staff
- Imaging
- MAs
- Nurses
- Nurse Techs
- Providers
- Rehab and Respiratory Therapy

EDUCATION STRATEGY: **Online Promise Point Simulation Education <u>Available Now!</u>**

All PowerForm and Dynamic Documentation Users

- Curriculum Name: Clinical Entry Workspace
  - NOLH-1840.15 PCTRV Use the Clinical Entry Workspace
    - Duration 6 minutes

Inpatient and Surgical Clinical Staff

- Curriculum Name: Modernized Vitals-Clinical v1
  - NOLH-1030 ACTAMB Document from the Vital Signs Component
    - Duration 29 minutes
  - NOLH-1040 ACTAMB Document Vital Signs in iView
    - Duration 4 minutes

Ambulatory and ED Clinical Staff

- Curriculum: Modernized Vitals-Clinical v2
  - NOLH-1030 ACTAMB Document from the Vital Signs Component
    - Duration 29 mins!
  - NOLH-1035 ACTAMB Document Temperature in a PowerForm
    - Duration 2 mins!
  - NOLH-1040 ACTAMB Document Vital Signs in iView
    - Duration 4 mins!
