9/16/2026	Inpatient	OBG Labor and Delivery	CDS Review. Removed unused orders

Leadership

Emergency

Omnicell Technology Conversion – EMMC Only (*Go-Live July 7-September 20*)

WHAT: Northern Light Health is moving from its existing BD Pyxis system to the modern Omnicell platform. The transition will introduce automated dispensing cabinets, anesthesia workstations, central pharmacy dispensing solutions, and Anywhere RN, which enables remote medication queuing for Omnicell dispensing within PowerChart and FirstNet.

NOTE: For more information about **Oracle Cerner Omnicell Anywhere RN**, click [here](#). Additional training materials and resources are available on the Omnicell Training [website](#), and education for this transition will be provided through [HealthStream](#).

WHY: The transition standardizes and modernizes medication management technology across Northern Light Health to support a smoother, more efficient process for managing medications in daily patient care and pharmacy settings.

WHEN: Tuesday, July 7, 2026 – Wednesday, September 9, 2026

WHERE: The change will affect the following venue(s):

- Acute/Inpatient
 - ED
 - Peri-Op
-

EHR Updates

Week of September 3 – September 9, 2026

At the following NLH Member Organization(s):

- Eastern Maine Medical Center

WHO: The change will affect the following staff at the above noted locations starting on noted dates:

- **Clinical Staff and Pharmacy:** Omnicell XT Automated Dispensing Cabinets (Go-Live: July 7 – August 12)
- **Pharmacy:** Omnicell Controlled Substance Manager (Go-Live: June 29)
- **Anesthesia and Pharmacy:** Omnicell XT Anesthesia Workstation (Go-Live: August 18 – September 9)

Inpatient

Pharmacists & Pharmacy Technicians

Ambulatory/WIC

Pharmacist AMB Workflow MPage

WHAT: A new **Pharmacist AMB Workflow MPage** will be introduced to support **ambulatory and specialty pharmacy workflows**. The MPage is designed to improve workflow efficiency and provide easier access to key patient and medication information. Enhancements include:

CC AMB Pharmacist (LAB)

- A new CC AMB Pharmacist (LAB) field has been added to ambulatory lab orders. The new field allows ambulatory pharmacists to be copied on lab orders that are proposed on behalf of, or ordered by a provider, ensuring both the provider and ambulatory pharmacist receive the lab results.

A screenshot of a form field labeled "CC AMB Pharmacist (Lab):" followed by a text input box and a magnifying glass icon.

Documentation Filter Enhancements

- The Documents component will allow filtering for additional categories, improving chart review efficiency.

Enhanced Diagnostics Component

- Outpatient imaging and test results will be available within the Diagnostics component.

A screenshot of a "Documentation Filter" dialog box. It has a title bar with a close button (X). Below the title bar are tabs: "All Visits", "Last 18 months", "Last 24 hours", and "Last 7 days". Below the tabs is a section labeled "Provider Documentation" with a "Change Filter..." button. Below this is a list of checkboxes: "Provider Documentation" (checked), "Admission and IP Consult Notes", "Office Visits, OP Consultations, Office Procedures", "Discharge Documentation", "Emergency Documentation", "Nursing Documentation", "Procedure and Operative Notes", "Phone Messages, Correspondence and Letters", "Nursing Intake", "Rehabilitation and Respiratory Therapy Notes", and "All Documents". At the bottom are buttons for "Reset to default", "Apply", and "Cancel".

EHR Updates

Week of September 3 – September 9, 2026

Endocrinology-Specific Workflow Functionality

- The Antepartum Record has been added to the Table of Contents menu.
- The Diabetes Results Flowsheet will be available to review.

Medication Reconciliation

- The ability to complete medication reconciliation has been added directly within the Pharmacist AMB Workflow MPage.

NOTE: Medication Reconciliation education is available [here](#).

Pharmacy Office Note

- A new Pharmacy Office note type has been added within the Create Note section, improving the organization and accessibility of ambulatory pharmacy documentation.

NOTE: The new Pharmacy Office Note is located in the Pharmacy Notes folder within the Office Notes parent folder. Note filtering instructions are available [here](#).

WHY: These enhancements support efficient pharmacist workflows, accurate documentation, and timely patient care through improved access to patient information.

WHEN: Wednesday, September 9, 2026

WHERE: The change will affect the following venue(s):

- Acute/Inpatient
- Ambulatory

At the following NLH Member Organization(s):

- All NLH Hospitals (excluding Mayo)

WHO: The change will affect the following staff at the above noted locations:

- Pharmacists
