

Social History Tool Update

The **Social History Tool** was recently updated to ensure a timely notification for the Patient Blood Management Program. Any form that includes the Social History tool has been affected by the update.

- A red asterisk displays in the **Spiritual/Cultural** category if **Restrictions/Concerns** have not been updated in the last 365 days.

- The **Intake or Admission History** form **cannot** to be signed until the update is made.

- **Spiritual/Cultural** updates are required on the first visit after the documentation has reached or exceeded 365 days and includes Primary Care, Specialty Practices, Inpatient, and Emergency Department locations.
