Providers can use the Clinical Research tab within PowerChart and FirstNet to view information for patients who are enrolled in a Clinical Research study.
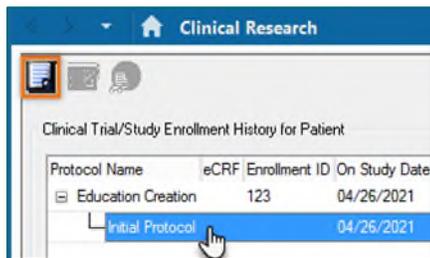

Clinical Research Tab

➢ From within the patient's chart in PowerChart or FirstNet, navigate to the **Clinical Research** tab in the Menu.
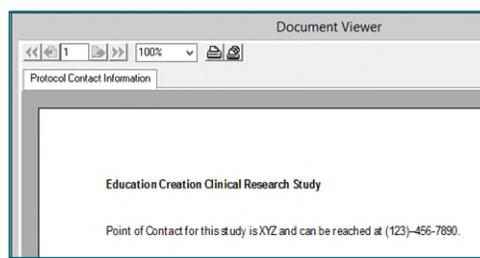

- **Protocol Name:** name of the study the patient is enrolled in.

- **Enrollment ID:** number assigned to the patient in that particular study.

- **On Study Date:** the date the patient was enrolled into the study.

- **Off Treatment Date:** when the patient was taken off treatment.

- **Off Study Date:** when the patient was taken off the study.

- **Contact Information:** members of the study team who have been identified as a point of contact for a study are listed here.

➢ To view contact information for the identified points of contact for the study, select the **Initial Protocol** listed under the protocol name to highlight it and click the **View Document** icon.
