

Ambulatory managers will have view-only access to the Clinical Charge Entry component to review inpatient provider charges. This will aid in the reconciliation process for inpatient provider charges.

Adding AMB Manager Clinical Charge Entry Reconciliation (View only)

To begin using the Clinical Charge Entry component, managers will need to ensure the viewpoint is added.

STEP 1: Click    

STEP 2: Select
**AMB Manager Clinical Charge Entry
Reconciliation (View only).**

AMB Manager Clinical Charge Entry Reconciliation (View only)

Clinical Charge Entry Component

➤ To view charges, open the patient FIN.

The Clinical Charge entry component offers interactive features related to charges for submission.

- **A: Primary Insurance** will be displayed here. Select the information icon to view Secondary Insurance for the selected patient encounter.
- **B: Encounter Charge History** for the selected patient encounter will display. The charge history is broken down to **Unsubmitted** and **Submitted** charge categories. The **Date**, **CPT Code**, **Description**, **Performing/Rendering Provider**, **Supervising Provider**, **Note** associated with the charge, and **This Visit Problem** will display once the charge has been submitted.
- **C: Show More** will display the historical charges for the current patient encounter that have been submitted. That last 15 days will appear; changing the date range will display more charges, if needed.

- **D: Last 7 days/Last 14 Days** allows the user to view all unsubmitted and submitted charges for the last 7 days or the last 14 days, whichever is selected.

Reviewing Clinical Charge Entry

- Notes that have an associated charge for the date of service (DOS) will appear in the Note column, and the associated CPT charge will appear in the Code column within the Submitted section.

NOTE: Missing notes and charges will not identify which specific provider did not complete the documentation.

NOTE: Managers are unable to add charges for providers.

What is Viewed in the CCE Component?

- **Q:** Can I view a note not associated with a charge in the Clinical Charge Entry Component?

- A: No, only charges submitted by themselves OR associated with a note can be viewed by management. Providers can see if they submitted a note not associated to a charge through Clinical Charge Entry.
- Q: Can I submit a charge on behalf of a provider?
- A: No, if a charge is submitted through the CCE Component, it will not be processed.
- Q: How can I tell if a note was documented on a patient without a charge?
- A: Navigate to the Documents component to confirm the provider wrote a note for the DOS. If the provider wrote a note and associated a charge to it, it will show in the CCE component.

The screenshot shows a software interface for document management. On the left is a sidebar with a list of categories: Documents (26), Allergies (1), Histories, and Home Medications (3). The 'Documents (26)' category is selected. The main area on the right displays a table of documents under the heading 'Completed (26)'. The table has three columns: a date and time column, a document type column, and a description column. Two rows are visible and highlighted with an orange border.
