

Clinical end users have access to NLH customized patient education. These “bundles” will contain recommended education for specific Core Measure topics.

NOTE: The information in this flyer is not intended for EMMC. EMMC instructions are available on the EMMC Patient Education & Discharge Instructions website.

Finding Custom Patient Education

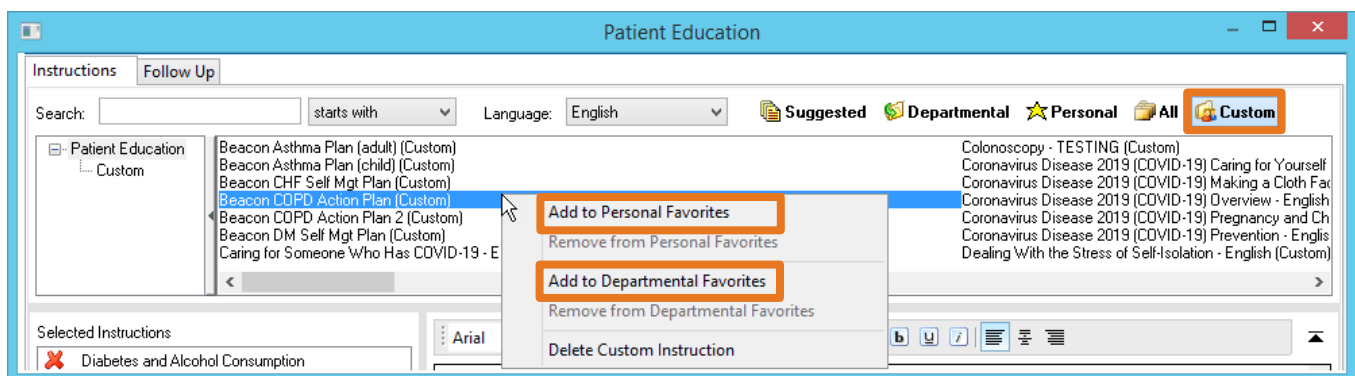

STEP 1: From inside the patient’s chart, click **Patient Education** on the patient toolbar.

STEP 2: In the Patient Education tool, click **Custom** to view the EMHS recommended education content.

STEP 3: Double-click to select the appropriate patient education topic.

STEP 4: If you prefer, you can right-click an education topic and choose **Add to Personal** or **Add to Departmental Favorites**. This will place the education in either the Personal or Departmental Favorites folder for easy access in the future.

For questions regarding process and/or policies, please contact your unit’s Clinical Educator or Clinical Informaticist. For any other questions please contact the Customer Support Center at:
207-973-7728 or 1-888-827-7728.
