**Clinical end users have access to NLH customized patient education. These "bundles" will contain recommended education for specific Core Measure topics.**

<u>NOTE:</u>   Additional patient instructions for EMMC are available within Patient Discharge Instructions in Clinical Systems Website.

## Finding Custom Patient Education

➢ **Workflow MPage**

- From inside the patient's chart, click **Patient Education** component on Workflow MPage.

- Click **Custom**.

- Click **Public** folder in the Add Education window.

- Click in **Search All Education** field or scroll to find the appropriate patient education topic.

- Click to select the appropriate patient education topic.

  ▪ Select the **star** icon ☆ to the right to save to favorites. The star will become yellow, and the report will be listed in the **Favorites** button.

➢ **Patient Toolbar**

- From inside the patient's chart, click **Patient Education** on the patient toolbar.

- Click **Custom**.

- Double-Click to select the appropriate patient education topic.

- Right-click an education topic and choose **Add to Personal Favorites** or **Add to Departmental Favorites** for easy access in the future.

NOTE: **To switch education to a different language, click the dropdown arrow to choose.**
