

Social History documentation has been updated to allow for more thorough and complete documentation, decrease the need for additional free text information, and standardize documentation within the Ambulatory Intake, ED Intake, and Inpatient Admission forms.

Social History Updates

- The **Mark All as Reviewed** button should NOT be used. Use of this button is leading to reporting errors.
- If categories have been reviewed and no changes were needed, those categories should be selected in **Social History Reviewed No Changes** located below Social History.

Tobacco

- Tobacco is now a required category.
 - A red asterisk will display in the Tobacco category if **Smoking tobacco use** and **Smokeless tobacco use** have not been updated in the last 365 days.
 - The Intake or Admission History form will not be able to be signed until the update is made.
 - Tobacco Use updates will be required on the first visit after the documentation has reached or exceeded 365 days and includes Primary Care, Specialty Practices, Inpatient, and Emergency Department locations.

- Use the **Smoking Cessation** documentation field below Social History to document the patient has been **advised to quit tobacco** and offered referral or help from your office or hospital.

- The **Alcohol Screening** section has been added to the **Ambulatory Intake, ED Triage, and Inpatient Admission History** forms for easy workflow.
 - EMMC should complete **AUDIT Assessment Completed in Alcohol Category Above** to assist with data collection for the ED Trauma Certification.

➤ Alcohol Screening Form

- The first three questions will determine the need to complete the full AUDIT assessment.
- Based on the responses, **Yes** or **No** will auto populate in **Complete the Full AUDIT Assessment**.

Substance Use History

- Name changed from **Substance Abuse**.
- Updates allow for a more comprehensive documentation of substance use.

Abuse/Neglect

- Documentation for **Injuries/Abuse/Neglect in household** have been added as well as the ability to document what **type of abuse** is present, and any **agencies** that were notified about the abuse.

Home/Environment

- This category is much more robust, with additions for documenting **Home Equipment, Special Services, Community Resources** being utilized and more.

Exercise

- More **exercise type options** have been added, along with **screen time**, and the ability to document if the patient has been **counseled on physical activity**.

Employment/School

- This category contains options to document more details about the **type of work, work hazards, level of education**, and any **school concerns**.

Nutrition/Health

- **Types of diet** has been expanded to include many of the commonly used diets today. **Caffeine intake, Vitamins/Supplements, Eating Disorders, Sleeping concerns, and Use of alternative healthcare** are among some of the new documentation additions.

Sexual

- Gender Identity has been replaced with **If patient identifies as a gender other than their birth gender, please select.**
 - If documented, an icon  will display next to the patient's gender in the patient Banner Bar.
 - Click the icon  to open the **Sex and Gender Identity Information** box.
 - Information cannot be changed from within the box. Contact Registration if the Birth or Administrative Sex is incorrect.
 - Gender Identity is corrected from within the Social History Tool.
 - Click **Save** or **Cancel** to close the box.
