

# From the Office of Health Informatics Oracle Health (Cerner) Millennium Recommendations Component

April 29, 2025

# Recommendations is a component within the Workflow MPages. The component will display Recommendations for patients for preventative measures based on age, gender, and diagnosis.

#### Recommendations Component

- Displayed are columns for **Recommendations**, **Next Due**, **Last Action**, **Recurrence**, **Source**, **Orders**, and **View**.
- The view can be changed from **Pending** to **Not Due/Historical** or **HealtheRegistries** by using the filters in the upper left.
  - Click Edit by Communication Preference to change patient preferred communication method.
  - Click the recommendation and then click **Modify** to modify the recommendation.
  - Click Actions dropdown to mark the recommendation as Done, Discussed no action taken, Cancel Permanently (Provider Only), or Patient declined after informed discussion. Any linked forms associated to the recommendation will also be accessible in the dropdown menu.
  - Click the hyperlink **View Supporting Facts** under **Category/Registry** and **Status** to see any additional information.
  - Click the arrow to expand all historical data related to the recommendation.
