

This reference shows different scenarios for IV Stop Time documentation. Always verify that the Start Time and Stop Time values are different.

Action	Task
Patient is given IV Infusion	<p><u>Stop Time defaults to projected end time.</u> Stop Time MUST be reflective of actual end time.</p> 
Patient is given IVPB	<p><u>Stop Time defaults to Start Time.</u> Stop Time MUST be changed to reflect end time.</p> 
Patient Discharge	Complete all IV Stop Times in ED Nurse MPage, noting appropriate end times as in examples above.
Patient Transfer	<p>Complete all IV Stop Times upon Transfer outside of department, even if bag is still running.</p> <ul style="list-style-type: none"> Reimbursement is for billing captured on the ED encounter.
Patient Admission	<p>Complete all IV Stop Times when Admission order is entered on the following patient types:</p> <ul style="list-style-type: none"> Inpatient status <p>Inpatient Nursing to complete IV Stops Times:</p> <ul style="list-style-type: none"> ED to Observation ED to Outpatient Occupying a Bed
