# Cerner Millennium
# Transfusion Charge Documentation

December 18, 2024

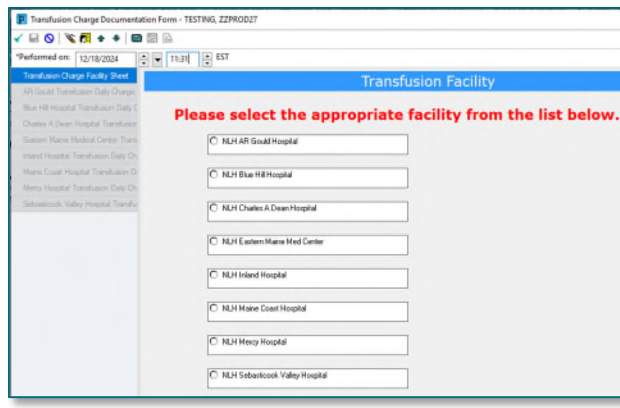
**A CareCompass task will fire for nursing to complete Transfusion Charge Documentation for patient's receiving blood or blood products. The task is to assist with ensuring a charge is captured for the transfusion.**

## Transfusion Charge Capture Workflow

STEP 1: When **Transfusion Start Date/Time** is documented in **Bridge Blood**, a task will go to CareCompass prompting the nurse to document transfusion charges.

**NOTE: Transfusion Start Date/Time MUST be documented for the CareCompass task to fire.**

STEP 2: Clicking **Document** in CareCompass will open the **Transfusion Charge Documentation Form** where the charges will be documented.



STEP 3: The **Transfusion Charge Documentation Form** opens to the **Transfusion Facility** section. Select the facility in which the transfusion is taking place.

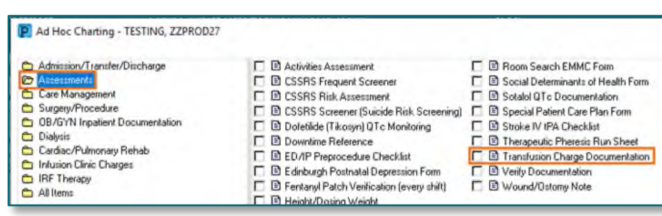
STEP 4: The facility-specific charge section will open. Select the facility and nursing unit in which the blood or blood product is being administered.

STEP 5: Once complete, sign the form by clicking the **green checkmark** ✓.

**NOTE: Only one transfusion charge is allowed to be billed per calendar day. Nurses will see only one task for Transfusion Charge Documentation in CareCompass or Activities in FirstNet.**

## Tasks Not Firing to CareCompass

- **There are scenarios in which a task will not populate to Care Compass or Activities, such as:**
  - Anytime a transfusion is documented on paper.
  - Blood taken from a refrigerator in an ED.
  - Mass Transfusion in which transfusion is documented on paper.
  - An outpatient goes to an inpatient nursing unit for a transfusion.
- In these scenarios, the nurse will need to go to **AdHoc** in the **Assessments** folder to document the **Transfusion Charge Documentation** form.



**For questions regarding process and/or policies, please contact your unit's Clinical Educator or Health Informaticist. For any other questions please contact the Customer Support Center at: 207-973-7728 or 1-888-827-7728.**
