

Multidisciplinary Rounding (MDR) Tool is being used during multidisciplinary rounding. Tasks assigned through this tool flow to the Dietitian Multipatient Task List (MPTL). These tasks assist to ensure the discussion of new orders or follow-up items during rounding are completed. These tasks also display on the CareView Dashboard under Barriers for Discharge with an icon specific for the type of task.

Completing Dietitian Tasks from the Multipatient Task List (MPTL)

Many of the tasks going to the MPTL from the MDR Tool begin with Diet or Dietary.

The screenshot shows the 'Multi-Patient Task List' interface. It includes a toolbar with icons for search, refresh, and other actions. Below the toolbar is a section for 'SBLA Assigned Tasks' with a sub-section for 'Nutrition Consults'. A message 'Task retrieval completed' is displayed. The main table has columns for 'All Patients', 'Location/Room/Bed', 'Name', 'Task Status', 'Mnemonic', and 'Order Details'. One task is highlighted in blue, and a context menu is open over it, showing options: 'Chart Done', 'Chart Not Done...', 'Quick Chart', 'Chart Details / Modify...', and 'Unchart...'. A small yellow checkmark icon is visible in the bottom right corner of the screenshot.

All Patients	Location/Room/Bed	Name	Task Status	Mnemonic	Order Details
<input checked="" type="checkbox"/> TESTING_BUILDONE					
<input checked="" type="checkbox"/> TESTING_CARDIO2					
<input checked="" type="checkbox"/> TESTING_COVID6MTO4YRS					
<input checked="" type="checkbox"/> TESTING_MARY					
<input checked="" type="checkbox"/> TESTING_PAYTON					
<input checked="" type="checkbox"/> TESTING_TRAVKELCE					
<input checked="" type="checkbox"/> TESTING_VALIDFOUR					
<input checked="" type="checkbox"/> TESTING_VALIDTHREE					
<input type="checkbox"/>	SBLA / B579 / 01	*TESTING_CARDIO 12/28/1960 <i>*Name Alert</i>	Pending	Diet Modification/Recommendations	Start: 01/16/24 16:31:00 EST

STEP 1: Select the task and right-click to open the documentation options.

STEP 2: Select **Chart Done** once the task has been completed.

- A green checkmark displays to the left of the task and the Task Status will update to Complete. 
- Refresh the screen using the **minutes ago** button and the task will fall off the MPTL.

NOTE: If the task cannot be done or was already completed, click **Chart Not Done** and select the appropriate option in the Reason Not Done dropdown.
