

---

On August 17, 2020, PowerChart Maternity will be going live. The implementation of this solution will cross from the ambulatory to the inpatient setting improving the continuity of care provided throughout the patient's pregnancy and ensures all members of the healthcare team have access to information necessary for delivering high-quality care. This flyer will review the process for documenting the GYN Visit.

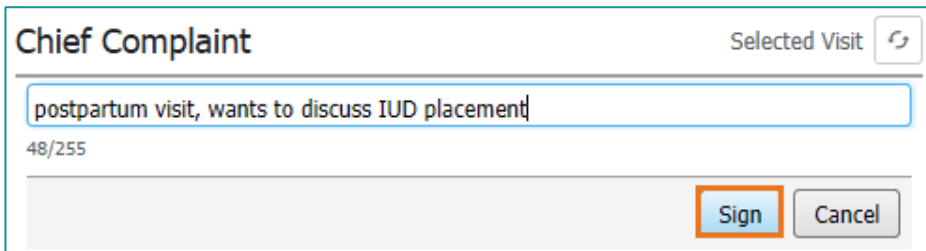

---

### GYN Office Visit

From the GYN Clinic MPage, documentation for GYN visits will occur. This flyer will review the components unique to this MPage that will be utilized for documenting postpartum and GYN office visits.

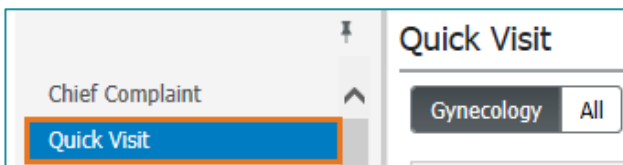

#### ➤ Chief Complaint

- Nursing staff will enter the chief complaint for the patient.
- Providers can update and/or modify the chief complaint.
- Sign when complete.

#### ➤ Quick Visit

- Quick Visits have been designed to create a note template for you that, depending on the quick visit, will contain diagnosis, Review of Systems, Orders, and charges.
- From the Quick Visit component, select the appropriate note for the visit, by highlighting the visit.
