

FetaLink is a maternal and fetal monitoring system that facilitates the flow of data from medical devices in a manner that supports display needs of clinicians in acute and ambulatory settings. This flyer will discuss the use of FetaLink +.

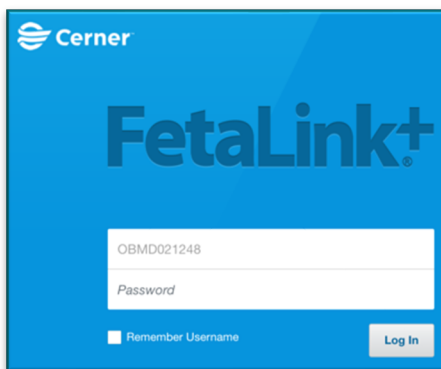

FetaLink +

FetaLink+ is a mobile application that will be used by OB providers on their IOS mobile devices (phone or iPad). The app is a view only mode for the patient's fetal monitoring.

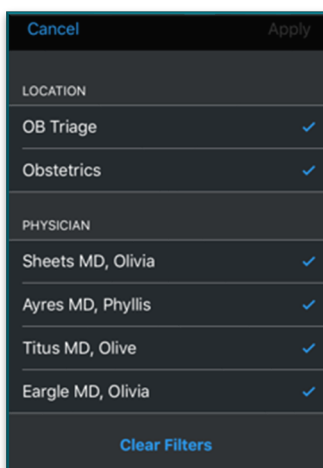

- From the app store, select FetaLink+ and install on an IOS device.

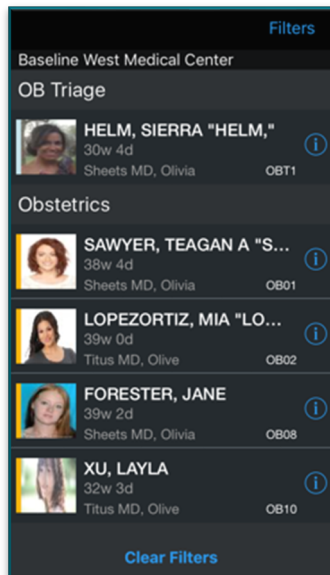

- When the app launches, sign in with Cerner login and password at the prompt.

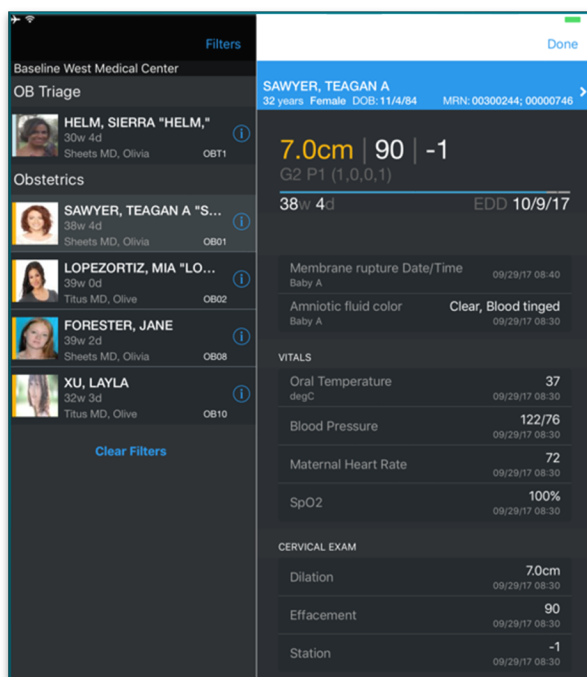

- Filters can be created by location and providers.

- The patient's names with location. EGA, room number, and provider's name will be displayed based on location.

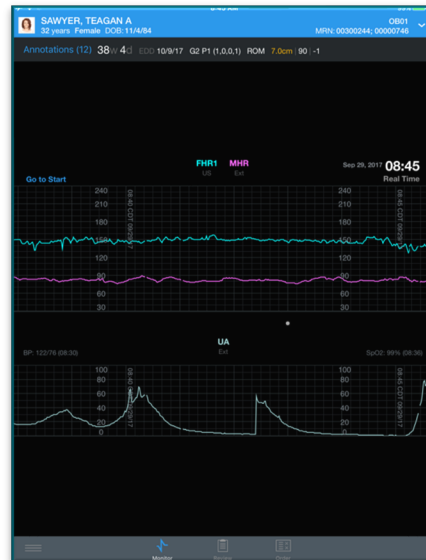

- Select the patient and view the patient's information based on the nursing documentation when the patient's name is selected.

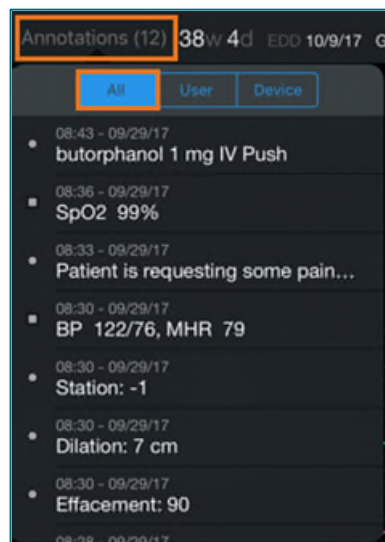

- From the lower portion of the screen, select **Monitor, Review** and **Order**.
 - Monitor

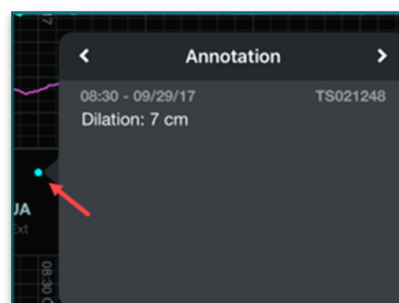

- From the monitor screen, the strip is viewable.

- Select **ALL** on annotations to view all the annotations for the patient.

- To view a specific annotation, click the icon on the strip.

- Patient Information

- By selecting the banner bar for the patient, demographic information is available to view.
- Available information includes Demographics, encounter details, family contacts and preferred pharmacy

The screenshot shows the 'Patient Demographics' screen for Sawyer, Teagan A. The left sidebar contains a list of tabs: Patient Demographics (selected), Encounter Details, Care Team, Family Contacts, Insurance Information, and Preferred Pharmacy. The main content area displays the following information:

	Allergies

- To see more details, a lab result can be highlighted.

Labs (Last 3 Years)			
Automated Hematology	Latest	Previous	
WBC (4.0-11.0) x10 ³ /mcL	6.3 x10 ³ /mcL 27 minutes	6.0 x10 ³ 8 weeks	Hgb (12.0-16.0) g/dL Trend 12.3 g/dL Sep 29, 2017 8:22 a.m. 12.0 % Aug 9, 2017 10:30 a.m.
RBC (3.80-4.80) x10 ³ /mcL	4.20 x10 ³ /mcL 27 minutes	4.00 x10 ³ 8 weeks	
Hgb (12.0-16.0) g/dL	12.3 g/dL 27 minutes	12.0 % 8 weeks	
Hct	38.0 %	37.0 %	

- Order
 - Orders can be viewed by selecting **Order** at the bottom of the screen.
 - Orders will be displayed, to view more details, select the order name.

The screenshot shows the FetaLink app interface for patient SAWYER, TEAGAN A. The top bar includes the patient's name, age (32 years), gender (Female), date of birth (11/4/84), and MRN (00300244; 00000746). The main screen is divided into two sections: 'Orders' on the left and 'Order Details' on the right. The 'Orders' section lists various patient care orders, including Resuscitation Status, Sedation Assessment Adult, Urine Dipstick POC, Vital Signs, Activity, Up ad Lib, Diet/Nutrition, NPO, Continuous Infusions - Continuous LR, 1,000 mL, Medications - Scheduled (ampicillin), multivitamin, prenatal, butorphanol, and docosate. The 'Order Details' section shows the details for the 'ampicillin' order, including the dose (1 g), route of administration (IV Piggyback), frequency (q4hr), PRN status (No), duration (30 days), first dose date/time (9/29/17, 9:00 AM), stop date/time (10/29/17, 8:59 AM), anti-infective indication (Other (See Comments)), first dose priority (Routine), ordering provider (Ordering Physician: Sheets MD, Olivia), and comments (Until delivery).

NOTE: The app is a view only application to view patient's fetal monitoring status.

For questions regarding process and/or policies, please contact your unit's Clinical Educator. For questions regarding workflow, please [place a ticket](#) to Health Informatics. For any other questions please contact the Customer Support Center at: 207-973-7728 or 1-888-827-7728.
