

On Thursday, April 2, 2020, a new PowerForm called Comprehensive Diabetes Foot Exam Form will be available to allow providers to document specific elements for diabetic foot exams to meet CMS requirements to bill for a diabetes foot exam. The new PowerForm has also been added to the Actions options in Recommendations.

Comprehensive Diabetes Foot Exam PowerForm

The Comprehensive Diabetes Foot Exam Form is accessible from the Recommendations component under Diabetes Maintenance - Foot Exam in the Actions drop-down options. It is also available in AdHoc on the toolbar.

➤ Documenting the Comprehensive Diabetes Foot Exam

STEP 1: From the Recommendations component, click **Diabetes Maintenance - Foot Exam**.

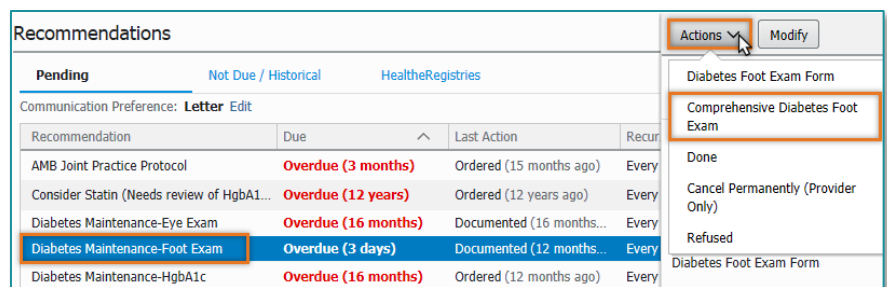

STEP 2: In the Actions drop-down options, click **Comprehensive Diabetes Foot Exam Form**

STEP 3: Fill in the applicable fields in the form.

- Boxes indicate multiple options can be selected.
- Radial buttons indicate only one selection can be made.

STEP 4: Sign the form by clicking the green checkmark in the upper left corner.

- The text rendition from the form can be found within the Documents component from the workflow MPage.
