

The Controlled Substances component gives Providers the ability to review Prescription Drug Monitoring Program (PDMP) Reports within Cerner. The reports will be available to Providers and Pharmacists only. Registered Nurses and Medical Assistants will continue to review PMP by proxy on the Prescription Monitoring Program website.

PDMP Review

PDMP Review can be found in the Controlled Substances component on the MPages below.

- Ambulatory 2018
- Amb Cardiology 2018
- Amb ENT 2018
- Amb Gastroenterology 2018
- Amb Orthopedics 2018
- Amb Pain 2018
- Amb Pediatrics 2018
- Amb Podiatry 2018
- Cardiothoracic Amb 2019
- Clinic Workflow
- Phys Med & Rehab Workflow
- Discharge MPage
- ED Workflow
- GYN Clinic
- OP Surg Discharge
- Pharmacist Workflow
- Plastic Surgery Amb 2019
- Prenatal
- Refill MPage
- Trauma Surgery Amb 2019
- LTC Workflow
- WIC Workflow

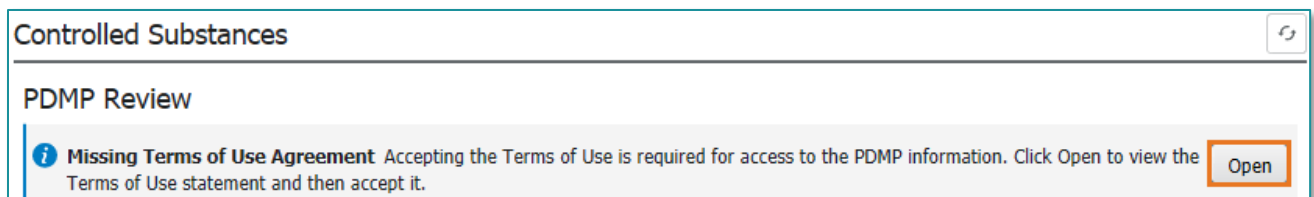

STEP 1: Navigate to the appropriate Provider MPage.

- Click the **Controlled Substances** component.

STEP 2: In the PDMP Review section, select **View Report**.

NOTE: Selecting **View Report** sends notification to the State the Provider has viewed the Patient's PDMP Report.

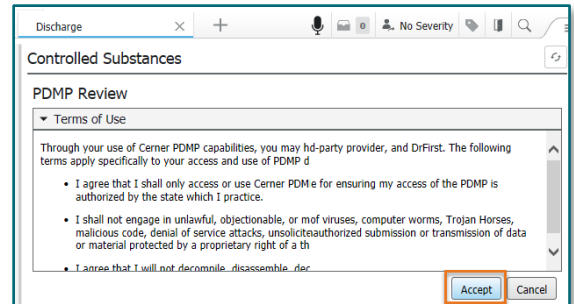

STEP 3: Missing Terms of Use Agreement populates under PDMP Review.

- Click the **Open** button in the bottom right.
- PDMP Review **Terms of Use** populates.

- After reviewing the Terms of Use, click **Accept** or **Cancel**.

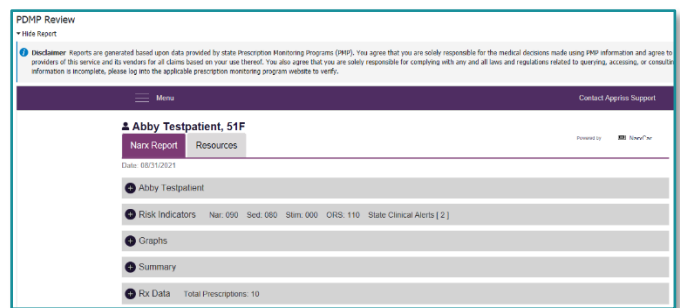

STEP 4: Once the Terms of Use are accepted, the PDMP report expands and displays demographic information, risk indicator graphs, and prescription information (summary of total prescriptions, total prescribers, and total pharmacies).

STEP 5: Complete PDMP Review.

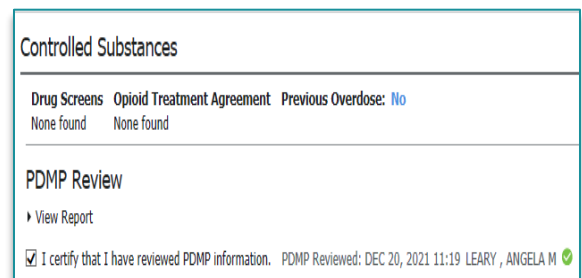

- After reviewing the PDMP Review, ensure the checkbox to the left of **I certify that I have reviewed the PDMP Information** is selected.

NOTE: The checkbox automatically checks after you select **View Report**.

STEP 5: Click the **Mark as Reviewed** button.

- **Mark as Reviewed** confirms the physician has reviewed the PDMP in Cerner and writes a date/time stamp to the backend tables in Millennium for reporting.
- The PDMP Reviewed, date/time stamped, Provider, and a red "X" becomes a green checkmark.

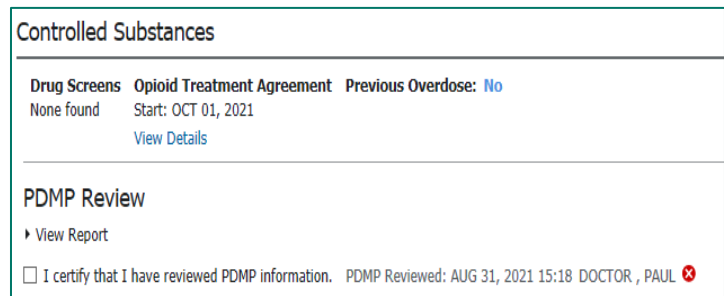

STEP 6: The **Query of PDMP Measure PI** report keys off the checkbox being reviewed and provides insight into physician usage and compliance of PDMP.

STEP 7: The **Opioid Section** will display the following:

- Drug Screens
- Opioid Treatment Agreement – The date will display of last agreement signed and view details. Click **view details** to see the Controlled Substance Form.
- Previous Overdose

NOTE: The new workflow will replace the prior one and will be moving away from the content within the prescriptions. Clinical staff should still use the auto text */controlledsubstance* to be sure we have a way of documenting their PMP review. NL Acadia will continue to use the auto text */bh_controlledsubstance*.

Provider Tips

- Providers do not need to do the PMP attestation auto text if they click the **Mark as Reviewed** in the PDMP Component. Don't forget to click the button every time.
- The PMP review fields in the Rx details are **OPTIONAL** for providers if they have clicked the **Mark as Reviewed**. Boxes outlined are optional and do not need to be completed.

- **Pill Counts:** These are entered on the adhoc form by the MA. Once recorded, they are available using the auto text that begins */controlledsubstance*. NL Acadia will continue to use */bh_controlledsubstance*.
- **Signing the Attestation from Message Center.**

- Click **Summary View**.
- Click **Controlled Substances**.
- Complete **Attestation**.

For questions regarding process and/or policies, please contact your unit's Clinical Educator or Clinical Informaticist. For any other questions please contact the Customer Support Center at:
207-973-7728 or 1-888-827-7728.
