

This flyer will demonstrate the process of a multiphase PowerPlan initiated by the provider.

## AMB Cosyntropin Stimulation Test

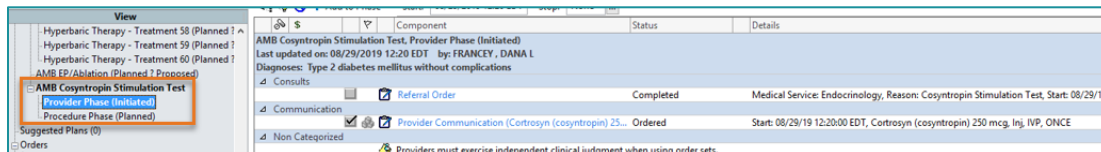

This PowerPlan is one that is unique as it is performed in two phases.

### ➤ Provider Phase

- Provider needs to choose IVP or IM Cosyntropin.

- Provider phase is initiated.

### ➤ Procedure Phase

- Staff will go to the procedure phase.
- Read provider communication to see if IVP or IM are wanted.
- Choose that option on the Cosyntropin medication order.
- Then initiate the procedure phase.
