
This Quick Reference Guide (QRG) demonstrates the processes for reviewing results in the chart.

Common Buttons & Icons

	Graph icon
	Refresh icon

Alter Clinical Date Range

➤ From the Inpatient Provider View:

STEP 1: Click **Results Review** in the left dark menu.

NOTE: The Microbiology or Labs Flowsheet can also be selected, depending on what is needed, from the Inpatient workflow menu.

STEP 2: Click the **Refresh** icon.

NOTE: Tabs will differ depending on role.

STEP 3: Right-click the gray date header.

STEP 4: Click **Change Search Criteria**.

STEP 5: Document the information needed in the Search Criteria window.

STEP 6: Click **OK**.

STEP 7: Click the **Refresh** icon.

Customize the Flowsheet View

➤ From the Inpatient Provider View:

STEP 1: Click **Results Review** left side dark menu.

STEP 2: Click the **Flowsheet** dropdown menu.

STEP 3: Click the appropriate flow sheet needed.

STEP 4: Click the **Level** flow sheet dropdown arrow.

STEP 5: Click the Level, as appropriate.

STEP 6: Click the needed radio button.

- Click the check box in the Navigator list to select and deselect what information should display.

STEP 7: Click the **Refresh** icon.

Navigate Results Review Tabs

- From the Provider View Results Review page:

STEP 1: Click the needed tab.

STEP 2: Click **Refresh** after navigating to a new tab.

Review Microbiology Information

- From the Provider View Results Review page:

STEP 1: Click the **Diagnostics** tab.

STEP 2: Click the **Forward, Copy, Preview, Related Results** at the top of the right-side pane as needed.

NOTE: These buttons activate once a microbiology order from the list has been selected.

STEP 3: Set the **Display** information to filter results.

STEP 4: Click an Existing Order row to select it.

NOTE: This will activate the **Customize View Previous Order** and **Next Order** icons.

STEP 5: Double-click an item to view additional specimen data, as needed.

STEP 6: Use the Personal Antibigram band to view antibiogram data, as needed.

Review Diagnostics Information

- From the Provider View Results Review page:

STEP 1: Click the **Diagnostics** tab.

STEP 2: Set **Display** filters, as needed.

STEP 3: Double-click a report to view associated report data.

Review Results by Graph

- From the Provider View Results Review page:

STEP 1: Click the checkbox for the desired results to graph on the flowsheet.

STEP 2: Click the **Graph** icon.

STEP 3: Click **Copy** to copy and share results, as appropriate.

STEP 4: Click **Close** to close the graph.
