This Quick Reference Guide (QRG) demonstrates how to compre studies in Enterprise Imaging.

Compare Studies

From the **Report** tab of a study:

NOTE: **The Eyeball icon indicates there are images to review for the study.**

The icon indicates a study is an Active study.

The X icon means there are no images available for a Comparison study.

The Report icon indicates there is a report available for a Comparison study.

The Comment box icon indicates there are study comments attached to a Comparison study.

STEP 1: Double-click the Comparison study to compare with the Active study.

- The right pane updates to display the Report information of the selected Comparison study.

STEP 2: Click the Image area icon.

- The studies display.

NOTE: **Report icons with a green line below them indicate this is an image from the Active study.**

The white Report icon with a purple line below indicates this an image from a Prior study (the Comparison study).

When viewing Comparison studies, a red border displays around the image in context. In the Clinical sidebar, the thumbnail for the image also displays with a red border, and the thumbnail image not in context displays with a dotted red border.

STEP 3: Click the Hanging protocols icon.

- The Hanging protocols window displays.

STEP 4: Click the star of an option to select it as the favorite view option.

- The star turns yellow to indicate it is now the favorite view.

NOTE: **Making the view a favorite does not make it the default view.**

STEP 5: Click-and-drag a view option to the far left position to set it as the default view.

STEP 6: Click a view option to update the screen with the selected Hanging protocol view.

STEP 7: Double-click an image to view it in full screen.

STEP 8:   Double-click the image once more to return to the selected Hanging protocol view.

STEP 9:   Click the patient banner to view a list of Comparison studies in the Image area view.   `TESTING, ALEXIS MRN 2340823 - NLH`

- A window displays the Active and Comparison study panes.

STEP 10:   Double-click a different Comparison study to compare it to the Active study or click anywhere outside the window to close it

STEP 11:   Use the mouse wheel to scroll through the images with the red border.

STEP 12:   Click an image in the right pane to bring the Comparison study images into context.

STEP 13:   Use the **Enable/disable navigation autolink** icon to link two images from different studies together.
