This Quick Reference Guide (QRG) demonstrates how to manage measurements in Enterprise Imaging.

Manage Measurements

Add Measurements to Report

➢ From the Image area screen of a patient's study:

STEP 1: Right-click the measurement to view the options.

NOTE: **Choose to add to current report section, add to measurement section, or add all measurements to measurement section.**

STEP 2: Click anywhere in the Image area outside the menu to close it.

Delete Measurement

➢ From the Image area screen of a patient's study:

STEP 1: Click the measurement line.

NOTE: **Click the measurement line, not the measurement itself.**

STEP 2: Right-click the measurement line; then click **Delete**.

Secondary Capture

➢ From the Image area screen of a patient's study:

STEP 1: Hover over the bottom center of the viewport.

- The **Up Arrow** displays.

STEP 2: Hover over the **Up Arrow.**

- The toolbar menu displays.

STEP 3: Click the **Capture** icon.

NOTE: **The Viewport only option takes a secondary capture of the image in the viewport only and sends just that image to the report.**

The All screens option takes secondary captures of all the images in the study and sends all the images to the report.
