
This Quick Reference Guide (QRG) demonstrates to the ICU nurse how to document the Sedation and Delirium Assessment and Pain with Delirium in the Adult Critical Care Systems Assessment band of iView.

Document the Sedation and Delirium Assessment

➤ From the Adult Critical Care Systems Assessment band in iView:

STEP 1: Click **Sedation and Delirium Assessment**.

STEP 2: Click the **RASS Score** cell.

STEP 3: Document the patient's RASS Score.

NOTE: If there are questions about RASS score, click the link to learn more information.

STEP 4: Click the **RASS Target** cell.

STEP 5: Document the patient's target RASS Score.

STEP 6: Click the **Pt Age For Confusion Assessment Method** cell.

STEP 7: Document patient's age.

STEP 8: Document preventable measures for the patient.

STEP 9: Document if the patient has a fluctuating mental status.

NOTE: If help is needed to determine the patient's mental status, click the **CAM-ICU Mental Status Fluctuating** link.

If the patient has a RASS score, click **Unable to Access**.

STEP 10: Document patient's **Attention Screen** method.

NOTE: To view information about the screening method, click the **CAM-ICU Attention Screening Exam Methods** link.

STEP 11: Document the number of errors made during the Attention Screen.

STEP 12: Document the patient's RASS Score.

NOTE: If the patient has a RASS Score of zero, additional steps detailed below need to be followed. If assistance is needed with any determinations, click the link associated with the assessment or result cell.

- a) Select the set used for the Disorganized Thinking Method.
- b) Document the number of disorganized thinking errors.
- c) Document patient's CAM-ICU result.
- d) Document any interventions that will be implemented.

STEP 13: Click the **Sign** icon. 

Document Pain with Delirium

➤ From the Adult Critical Care Systems Assessment band in iView:

STEP 1: Open the **Pain Assessment** section.

STEP 2: Complete the **Able to Self-Report Pain** cell.

NOTE: If **No** is selected, the appropriate pain scale must be selected in the **Unable to Self-Report Pain** cell.

STEP 3: Complete the remaining documentation rows in the section as appropriate.

STEP 4: Click the **Sign** icon.
