

Anticoagulation Therapy Management Checklist

Anticoagulation Management Project

Document and forward any additional questions that you are unable to answer to the appropriate member of the team. Do not leave concerns open-ended; YOU are responsible for following up.

Please note the following are priorities during your time with the staff:

- This workflow is for staff in Cardiology, Urology, Primary Care and Anticoagulation Clinics that manage Anticoagulation Therapy for patients.
- Order Anticoag Management JPP.
- Order Anticoagulation Patient Order.
- Assist with entering Incident tickets for Anticoagulation reports.
- Discuss how to find the Warfarin dosing Nomogram.
